

PRODUCT BULLETIN

FIFRA 2(ee) Recommendation

FOR USE AND DISTRIBUTION IN THE STATE OF CALIFORNIA ONLY

August 28, 2018
OxiDate 2.0
EPA Reg. No. 70299-12

FIFRA Section 2(ee) Recommendation: This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or accepted by the U.S. Environmental Protection Agency. This product bulletin must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

Use on Fruiting Vegetables to Control:

Anthracnose, Early Blight (Alternaria), Late Blight, Bacterial Wilt, Bacterial Leaf Spot, Bacterial Speck, Gray Mold (Botrytis), Cladosporium Mold, Powdery Mildew, Fusarium, Pythium, Rhizoctonia

Directions For Use:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product bulletin contains new or additional directions for use which are recommended by BioSafe Systems, LLC. under FIFRA Section 2(ee).

| Crop | Disease | Dilution Rate | Application Notes |
|---|--|------------------|---|
| Fruiting Vegetables Eggplant Peppers Tomatoes Tomatillos | Anthracnose Early Blight (Alternaria) Late Blight Bacterial Wilt Bacterial Leaf Spot Bacterial Speck Gray Mold (Botrytis) Cladosporium Mold Powdery Mildew Fusarium Pythium Rhizoctonia | 1:500 to 1:1,000 | Preventive: For best results, apply at first sign of disease. Use 12.8 fl. oz. to 25.6 fl. oz of OxiDate 2.0 per 100 gallons of water. For ground applied application. Apply 30-100 gallons of spray solution per acre. Ensure adequate coverage of upper and lower foliage, stems, branches and stalks. Maintain a 5-day interval spray cycle until harvest. For aerial applied applications: Apply 3-20 gallons of spray solution per acre. Do not make applications at a height greater than 10 ft. above the plant canopy, unless a greater height is required for aircraft safety. Making applications at the lowest height that is safe reduces exposure of droplets to wind and evaporation. Do not exceed the maximum application rate or apply more often than labeled in the Application Instructions for that crop. |
