

# FIFRA 24(c) Special Local Need Label (SLN)

For distribution and use only in the state of Utah

For use on Alfalfa Grown for Seed for control of Plant bugs (*Lygus* sp.),  
Alfalfa Weevil and Spotted Alfalfa Aphid

## CORMORAN™

**For Agricultural or Commercial Use Only**  
**EPA Reg. No. 66222-264** **SLN No. UT-170003**

This label expires and must not be distributed or used in accordance with this SLN registration after March 15, 2027.

### Directions for Use

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This state-specific Section 24(c) labeling must be in the possession of the user at the time of application.
- Follow all applicable directions, restrictions, and precautions on the EPA registered label for EPA Reg. No. 66222-264.

CROP	Insect	RATE OF APPLICATION
Alfalfa Grown for Seed	Plant Bugs ( <i>Lygus</i> sp.) Aphids (including Blue Alfalfa Aphid, Cowpea Aphid, Pea Aphid, Spotted Alfalfa Aphid) Alfalfa Weevil (suppression)	9.0 – 12.0 fl oz per acre
<b>APPLICATION RATE:</b> Make application at the rate of 9.0 – 12.0 fl oz per acre. Make applications only in accordance with directions and conditions of use described in the EPA registered Cormoran™ label.		
<b>METHOD OF APPLICATION:</b> Cormoran™ may be applied in a minimum of 15 gallons of spray solution per acre by ground sprayer or in a minimum of 5 gallons of spray solution per acre by aircraft spray equipment. Check equipment calibration frequently. Complete coverage and uniform application are essential for the most effective results, especially when lower spray volumes are applied. If necessary, increase the spray volume per acre for complete crop coverage.		
<b>TIMING/FREQUENCY OF APPLICATION:</b> Repeat applications if needed to maintain control, but do not make applications less than 7 days apart.		
<b>SPECIFIC USE RESTRICTIONS:</b> <ul style="list-style-type: none"><li>• Restricted Entry Interval is 12 hours.</li><li>• Preharvest interval of 14 days</li><li>• Do not apply more than 0.23 lb Novaluron active ingredient containing products per acre per season.</li><li>• Do not apply more than 0.3 lb Acetamiprid active ingredient containing products per acre per season.</li><li>• Do not apply more than 36.0 fl oz of formulated product per acre per season.</li><li>• This product may pose a hazard to endangered aquatic species. Refer to and follow the spray drift precautions on the USEPA registered label for this product.</li><li>• Rotational crops may be planted no sooner than 30 days after the last application</li></ul>		

**Special Crop Use Restrictions:**

The pesticide applicator, the producer of the crop, and the seed conditioner must be aware that use of this product according to this labeling is deemed a non-feed/non-food use. If the applicator of this pesticide is not the producer, the applicator must provide a copy of this labeling to the producer of the crop. Producers of this crop who use this product, or cause the product to be used on a field they operate, must provide a copy of this pesticide label to the seed conditioner.

This pesticide does not have established pesticide residue tolerances for this crop. Consequently, no portion of this crop may be used or distributed for human consumption or animal feed. This restriction pertains to, but is not limited to: green chop, forage, hay, pellets, meal, whole seed, cracked seed, straw, roots, bulbs, foliage, or seed screenings, and the grazing of the crop field, stubble or regrowth. All seed screenings shall be disposed of in such a manner that screenings cannot be distributed or used for food or feed purposes.

Any seed from a field treated with this pesticide product shall bear specific and conspicuous container labeling, or if shipped in bulk, on the shipment invoice or bill of lading. The labeling shall contain the following statement:

- "This seed was produced using one or more products for which the United States Environmental Protection Agency has not established pesticide residue tolerances. This seed, in whole, as sprouts, or in any form, may not be used for human consumption or animal feed. Failure to comply with this condition may violate requirements of the Federal Food and Drug Administration and other regulatory agencies."
