FIFRA §2(ee) RECOMMENDATION FOR DISTRIBUTION AND USE ONLY WITHIN THE STATES OF INDIANA, MICHIGAN AND WISCONSIN

Additional Pest for Mint

EPA REG. NO. 10163-322

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- All applicable directions, restrictions, and precautions on the EPA registered label are to be followed.
- This labeling must be in the possession of the user at the time of pesticide application.
- This recommendation is made as permitted under FIFRA §2(ee) and has not been submitted to or approved by the EPA.

| CROP | PEST | USE RATE FL OZ/ACRE | LB A.I./ACRE | COMMENTS |
|------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------|--------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| PEPPERMINT AND SPEARMINT  | Mint bud mite | 24 -36 | 0.32 – 0.48 | Ground: Apply in at least 20 gallons of water per acre. Use higher labeled rates for heavier mite pressure. Air Application: Apply the labeled rate of Magister SC by air in a minimum of 7 GPA. Applications made by air to dense foliage may not provide adequate coverage of lower leaf surfaces for sufficient control. Use of higher labeled rates may be necessary. |
| | Restrictions: <ul style="list-style-type: none"> • PHI = 7 days • Do not exceed application rate of 36 fl oz of product (0.48 lb a.i.) per acre per year. • Apply this product before bloom. | | | |

RESTRICTIONS ON ALL CROPS:

- Do not apply by any type of irrigation system.
- Only ground sprayer, airblast and aerial applications are permitted.
- Do not apply during conditions when product will drift to other crops and non-target areas.
- Do not apply within 100 feet of water bodies (including, but not limited to, lakes; reservoirs; rivers; permanent streams; marshes or natural ponds; estuaries; and commercial fish farm ponds).
- Do not plant rotational crops, other than those on this label, within 30 days of this application. Do not plant root, tuber and bulb vegetables within 120 days of this application.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

- Do not apply by any type of irrigation system.
- Do not apply until all crops to be treated are through petal fall unless the following conditions have been met:

1. FOR CROPS UNDER CONTRACTED POLLINATION SERVICES

- Do not apply this product while bees are foraging
- Do not apply this product until flowering is complete and all petals have fallen unless the following condition has been met:
If an application must be made when managed bees are at the treatment site, the beekeeper providing the pollination services must be notified no less than 48-hours prior to the time of the planned application so that the bees can be removed, covered or otherwise protected for 3 hours following application.

2. FOR FOOD CROPS AND COMMERCIALY GROWN ORNAMENTALS NOT UNDER CONTRACT FOR POLLINATION SERVICES BUT ARE ATTRACTIVE TO POLLINATORS

- Do not apply this product while bees are foraging.
- This product is toxic to bees exposed to residue for less than 3 hours following treatment.
- Do not apply this product to blooming, pollen-shedding or nectar-producing parts of plants if bees may forage on the plants during this time period, unless the application is made in response to a public health emergency declared by the appropriate state or federal authorities.
