EPA Statement

This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label:

Difference between SDS and EPA Pesticide label

CAUTION: Avoid contact with eyes, skin or clothing. Harmful if swallowed or inhaled. Causes moderate eye irritation. Avoid breathing dust or spray mist. Remove contaminated clothing and wash clothing before reuse. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Keep domestic animals and livestock out of treatment areas. Do not graze livestock on treated areas. Sharda Glyphosate IPA + Diquat Dibromide is considered relatively nontoxic to dogs and domestic animals; however, ingestion of large amounts of Sharda Glyphosate IPA + Diquat Dibromide or ingestion of freshly treated sprayed vegetation may result in temporary gastrointestinal irritation (vomiting, diarrhea, colic, etc.). If any such symptoms are observed, provide the animal with plenty of fluids to prevent dehydration. Call a veterinarian if symptoms persist for more than 24 hours.
