

Section 2(ee) Recommendation

Date: March 26, 2025

Product: Actigard® 50WG Plant Activator
EPA Reg. No. 100-922

Use: **Suppression of Bacterial Angular Leaf Spot in Tobacco**

State: KY, TN

Directions for Use

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- The user must refer to the federally approved labels for the above noted product and read and follow all directions for use, restrictions, and precautions.
- The user should have this recommendation in its possession at the time of use.
- This recommendation for use of this product is permitted under Section 2(ee) of FIFRA and has not been submitted to or been approved by EPA.

For suppression of Bacterial Angular Leaf Spot (*Pseudomonas syringae*) on tobacco, apply Actigard 50WG Plant Activator to tobacco at 0.33 oz/A. Initiate sprays preventatively and continue on a 7-10 day interval. Refer to the Crop Use Directions for Tobacco, on the Actigard 50WG Plant Activator Section 3 label for other use directions, use restrictions and precautions.
