

FIFRA Sec. 2(ee) Recommendation

Nurizma™

Insecticide

Reduced Application Volume Per Acre for In-Furrow Corn Applications

For use in states where this product is registered.

This Section 2(ee) Recommendation expires on December 31, 2026.

EPA Reg. No. 7969-423

This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the EPA.

All applicable directions, restrictions, precautions, and Conditions of Sale and Warranty on the EPA registered container label are to be followed.

Information contained in this Section 2(ee) Recommendation is not intended to replace or amend any product labeling. Always read and follow all label directions when using any pesticide alone or in tank mix combinations.

The user must have this recommendation in their possession at the time of use.

Directions For Use

For in-furrow corn applications, dilute **Nurizma™ Insecticide** in a minimum of 3 gallons of water or fertilizer carrier per acre.

Nurizma is a trademark of BASF.
