suspended.**

Active Ingredient

myclobutanil: a-butyl-a-(4-chlorophenyl)-1H-

1,2,4, triazole-1-propanenitrile.....40%

Other Ingredients60%

Total100%

Keep Out of Reach of Children

CAUTION

Environmental Hazards

Follow all applicable directions, restrictions, and precautions in the Environmental Hazards section of the label affixed to the main container of Rally 40WSP.

Directions for Use

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This SLN label and the label affixed to the main container of Rally 40WSP must be in the possession of the user at the time of pesticide application.
- Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on this SLN label and the label affixed to the main container of Rally 40WSP.

Rally® 40WSP fungicide is a systemic curative and protectant fungicide. For best results, apply on a regularly scheduled protectant spray schedule, starting at the first sign of disease development and continuing until the threat of further disease development is past. Apply 5 to 7.5 oz (0.125 to 0.187 lb active) of Rally 40WSP in a minimum of 20 gallons of water per acre for ground application or in a minimum of 10 gallons of water per acre for aerial application. Begin applications in early spring or when disease symptoms are first noticeable and continue applications on a 14- to 21-day application schedule. Use a higher rate or shorter spray interval on susceptible varieties or under heavy disease pressure.

Grass Species Grown for Seed		Target Pests	
fescues	<i>Festuca</i> spp.	rusts	<i>Puccinia</i> spp.
orchardgrass	<i>Dactylis</i> spp.		
perennial ryegrass	<i>Lolium</i> spp.		
Kentucky bluegrass	<i>Poa pratensis</i>	powdery mildew	<i>Erysiphe graminis</i>

Specific Use Restrictions:

- Do not harvest grass hay from treated fields within 1 year (365 days) after the last application of Rally 40WSP.
- Do not graze livestock in treated fields within 1 year (365 days) after the last application of Rally 40WSP.
- Do not apply more than 30 oz product (0.75 lb myclobutanil) per acre per year.
- **Chemigation:** For use under this SLN label, do not apply this product through any type of irrigation system.
- Do not cut treated grass grown for seed for forage, hay, or silage.
- Do not use harvested seed for sprouting.
- No portion of the treated field, including seed, seed screenings, hay forage or stubble may be used for human or animal feed.
