## **AERIAL APPLICATION**

Use appropriate spreading/application equipment to ensure thorough coverage of the treatment area. Apply when wind conditions are favorable and will limit offsite drift. Aerial applications count against the maximum number of yearly applications for spinosad, either by ground or air. Do not apply more than the maximum number of yearly applications specified on the EPA-registered label. Refer to EPA-approved label for complete list of **USE RESTRICTIONS**.

This FIFRA Section 2(ee) recommendation contains new or additional directions for use of this product, which may not appear on the package label. Read and observe the precautionary statements plus all other information appearing on the product labels. **This recommendation must be in the possession of the user at the time of pesticide application.**
