

CONTAINS NON-PLANT FOOD INGREDIENT

SOIL AMENDING GUARANTEED ANALYSIS

ACTIVE INGREDIENT:

87.3%Ethylene oxide-propylene oxide copolymer

INACTIVE INGREDIENTS:

12.7%Water, Ethoxylated sorbitan fatty acid esters

100.0%Total

F2544

GENERAL INFORMATION

AQUATE PRO L is a multi-function soil surfactant designed to enhance water infiltration and retention within the root zone to better manage moisture over time. It reduces surface tension, improves hydration uniformity and re-wetting, and minimizes runoff – making it effective even in tough soil and environmental conditions.

DIRECTIONS FOR USE

Apply this product according to label recommendations unless otherwise directed by a tank mix partner. Apply prior to the onset of environmental conditions that promote stress or reduced water infiltration. For best results, irrigate after application to move the product through the thatch layer and into the root zone. If tank mix partners require leaf contact, delay irrigation per their label guidance. During periods of high temperature, irrigation after application is strongly recommended to enhance performance and plant safety.

This product may be used across a wide range of soil types. Its specialized surfactant blend improves water infiltration and extends soil moisture retention. Application rates should generally fall between 0.75-6 fluid ounces per 1,000 square feet depending on environmental conditions, soil characteristics, intended placement within the soil profile, and overall plant health.

FOLIAR APPLICATIONS: Apply 0.75-6 fl oz per 1,000 sq ft in a minimum of 1 gallon of water per 1,000 sq ft [0.25-2 gallons per acre applied in a minimum of 44 gallons of water per acre].

Application Frequency	Rate per 1,000 sq ft
Standard Monthly Applications	3-6 fl oz
Bi-Weekly Applications	2-3 fl oz
High-Frequency Applications Low-Stress Conditions	0.75-2 fl oz

Adjust rate based on environmental factors, plant health, and the desired duration of effect. Higher rates support extended performance in more challenging conditions, while lower rates may be appropriate for well-managed systems or frequent applications.

HYDROSEEDING APPLICATIONS: Apply 1 quart to 1 gallon per 1,000 gallons of slurry, depending on conditions and desired performance. Mix thoroughly in tank for even distribution. Alternatively, apply 0.25 to 2 gallons per acre, based on total slurry volume and coverage rate.

IRRIGATION INJECTION APPLICATIONS: Inject at a rate of 2 pints per acre and repeat as needed based on the desired soil water conditions.

COMPATIBILITY AND MIXING: AQUATE PRO L is compatible with many nutrient sources as well as plant protection products. Always jar test new combinations for compatibility prior to mixing. Consult your area Wilbur-Ellis representative for recommendations. Agitation is recommended in fertigation tanks to ensure uniform mixing.

PRECAUTIONARY STATEMENTS

KEEP OUT OF REACH OF CHILDREN

Based on currently available data, this product is not classified as a GHS hazardous substance. However, observe good industrial hygiene practices. Wash hands after handling. Refer to the Safety Data Sheet if first aid instructions are needed.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. Store away from incompatible materials. Dispose of waste and residues in accordance with local authority requirements.

CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY

NOTICE: Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using the product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.

The Directions for Use of the product should be followed carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of many different factors including, without limitation, manner of use or application, weather, combination with other products, or crop conditions. All such risks shall be assumed by Buyer and User, and Buyer and User agree to hold Manufacturer and Seller harmless from any claims relating to such factors.

Seller warrants that this product conforms to the chemical description on the label. EXCEPT FOR THIS WARRANTY, THE PRODUCT IS FURNISHED "AS-IS," AND NEITHER SELLER NOR MANUFACTURER MAKES ANY OTHER WARRANTIES, EXPRESS OR IMPLIED, WITH RESPECT TO THE SELECTION, PURCHASE OR USE OF THIS PRODUCT; SELLER AND MANUFACTURER SPECIFICALLY DISCLAIM ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Buyer and User accept all risks arising from any use of this product, including without limitation uses contrary to label instructions, under abnormal conditions, or under conditions not reasonably foreseeable to (or beyond the control of) Seller or Manufacturer.

To the extent permitted by law, neither Manufacturer nor Seller shall be liable for any incidental, consequential or special damages resulting from the use or handling of this product. THE EXCLUSIVE REMEDY OF THE BUYER OR USER, AND THE EXCLUSIVE LIABILITY OF MANUFACTURER AND SELLER, FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THIS PRODUCT, OR, AT THE ELECTION OF MANUFACTURER OR SELLER, THE REPLACEMENT OF THE PRODUCT.

These Conditions of Sale and Limitation of Warranty and Liability shall be interpreted in accordance with the laws of the State of California, excluding its conflicts of laws rules, and may not be amended by any oral or written agreement.
