Quelex[®] Herbicide

EPA Reg. No. 62719-661

2(ee) Recommendation[†]

Wheat Straw from Treated Area

For Use and Distribution Only in the States of Delaware, Maryland, Virginia and Pennsylvania

ATTENTION

[†] This recommendation is made as permitted under FIFRA 2(ee) and has not been submitted to or approved by the EPA.

- It as a violation of Federal law to use this product in a manner inconsistent with its labeling.
- Read and follow all applicable directions for use, precautions and limitations on the product label attached to the container for Quelex[™] herbicide.

This production bulletin is being issued to provide additional clarity on the use of plant material from Quelex treated areas.

The Quelex[™] label contains the following **Use Restriction**:

- Do not compost any plant material from the treated area.

COMPOST – Compost is organic matter that has been decomposed and recycled for use as a soil amendment to improve soil conditions for growing plants.

In the production of compost, wheat straw and straw mixtures, can be mixed with other organic material and decomposed to produce compost that is used as topdress or mixed with soil for use as a fertilizer or soil amendment for growing plants. Wheat straw and straw mixtures from treated areas cannot be used in the production of compost used in growing plants.

Wheat straw can be used in activities such as livestock bedding, construction, mushroom growing, mulching, bio-fuel production, thatching, basket-making, etc.
