## PRODUCT INFORMATION BULLETIN

# Alligare IMOX™ Herbicide

EPA Reg. No. 81927-66

FIFRA 2(ee) Recommendation\*

For Distribution and Use Only in the State of Texas

For control of Arrowleaf Elephant Ear (*Xanthosoma sagittifolium*)

This 2(ee) recommendation expires on December 31, 2026

### ATTENTION

\*This recommendation is made as permitted under FIFRA 2(ee) and has not been submitted to or approved by the EPA.

- Read the label affixed to the container for Alligare IMOX Herbicide before applying. Carefully follow all precautionary statements and applicable use directions.
- Use of Alligare IMOX Herbicide according to the is product bulletin is subject to all use precautions and limitations imposed by the label affixed to the container for Alligare IMOX Herbicide.

### Emergent Weed Control

Alligare IMOX Herbicide may be applied for the control of Arrowleaf Elephant Ear (*Xanthosoma sagittifolium*). Alligare IMOX Herbicide is to be applied as a post emergent application.

### Terrestrial Use Directions

Alligare IMOX Herbicide can be applied as a foliar spot spray for the control of Arrowleaf Elephant Ear (*Xanthosoma sagittifolium*) with the use of ground equipment in sufficient water to obtain uniform distribution and spray to targeted foliage.

### Foliar Spot Application

Apply as a solution containing up to 5% v/v Alligare IMOX Herbicide spray. Add an approved methylated seed oil at 1% v/v. Due to potential recovery from the large corms (underground bulblike structures) retreatment may be necessary. Treatment may be very slow to work, showing limited symptoms for over a month.

**DO NOT** apply more than 1 pound of imazamox acid equivalent (1 gallon) per acre per year. **DO NOT** exceed 2 applications of Alligare IMOX Herbicide per year. **Minimum Retreatment Interval:** 14 days

Follow all applicable use directions, precautions, and limitations on the product label attached to the Alligare IMOX Herbicide container.
