EPA Reg. No.: 5481-520

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This recommendation is made as permitted under FIFRA § 2(ee) and has not been submitted to or approved by the Environmental Protection Agency (EPA).

THIS BULLETIN MUST BE IN THE POSSESSION OF THE USER AT THE TIME OF APPLICATION.

Before applying Wisdom TC Flowable, please read the complete label affixed to the product container. All applicable directions, restrictions and precautions on the EPA-registered label are to be followed. Use of Wisdom TC Flowable according to this supplemental labeling is subject to the use precautions and limitations imposed by the label on the container.

IMPORTANT: Read the entire Directions for Use and the Limited Warranty and Disclaimer on the EPA-registered Wisdom TC Flowable label before using this product.

Use Information

For control of Spotted Lanternfly nymphs and adults.

PEST CONTROL ON OUTSIDE SURFACES AND AROUND BUILDINGS

Apply Wisdom TC Flowable using a 0.03% to 0.06% suspension as a residual spray to outside surfaces of buildings including, but not limited to, exterior siding, foundations, porches, window frames, eaves, patios, garages, refuse dumps, lawns such as grass areas adjacent or around private homes, duplexes, townhouses, condominiums, house trailers, apartment complexes, carports, garages, fence lines, storage sheds, barns, and other residential and non-commercial structures, soil, trunks of woody ornamentals and other areas where pests congregate or have been seen. Use a spray volume of 1 gallon per 1,000 square feet.

Mixing Directions: For 0.03% suspension, mix 0.5 fl oz of Wisdom TC Flowable per gallon of water. For 0.06% suspension, mix 1 fl oz Wisdom TC Flowable per gallon of water (1 fl oz = 2 tablespoons). Use the higher rate for heavy pest infestation, quicker knockdown or longer residual control.

ORNAMENTALS AND TREES

For ornamental applications (including, but not limited to, trees, shrubs, ground covers, bedding plants, and foliage plants) Apply the specified application rates as a full coverage foliar spray.

The higher application rate should be used when maximum residual control is desired.

| Pest | Application Rate Wisdom TC Flowable | |
|--------------------------------------|--|--------------------------------------|
| | Fluid Ounces (fl oz) per 1,000 square feet | Fluid ounces (fl oz) per 100 gallons |
| Spotted Lanternfly nymphs and adults | 0.50-1.00 | 21.70-43.50 |

Refer to the Wisdom TC Flowable label for complete Directions for Use paying attention to use site descriptions.

Restrictions

The maximum label application rate of 1.0 fl oz per 1,000 square feet or 43.50 fl oz per 100 gallons of water is not to be exceeded.
