

FIFRA

Section 2(ee) Recommendation

For Use and Distribution in the State of Texas Only

Product: Headway®
EPA Reg. No. 100-1216

Use: Control of Take-All Root Rot in Warm Season Turfgrasses

Expire Date: December 31, 2027

- The user must refer to the federally approved labels for the above noted product and read and follow all directions for use, restrictions, and precautions.
- The user should have this recommendation in its possession at the time of use.
- This recommendation for use of this product is permitted under Section 2(ee) of FIFRA and has not been submitted to or been approved by EPA.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For control of Take-All Root Rot (*Gaeumannomyces graminis* var. *graminis*) on warm-season turfgrasses, apply Headway at a rate of 1.5 to 3 fl oz/1000 sq. ft. on a 28-day interval. Water in with at least 1/8" of irrigation immediately after application. Use preventatively. Begin applications when conditions are favorable for disease infection, prior to disease symptom development.

Maximum Application Rate: Do not apply more than 8.1 gallons product per acre per year (23.75 fl oz product per 1,000 sq ft per year).
