

**FIFRA §2(ee) RECOMMENDATION
FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF NEW MEXICO**

For the control of groundcherry in labeled crops

DIRECTIONS FOR USE

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- All applicable directions, restrictions, and precautions on the EPA registered label are to be followed.
- This labeling must be in the possession of the user at the time of pesticide application.
- This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the EPA.

PRODUCT INFORMATION

YUKON Herbicide is a Water Dispersible Granule (WDG) formulation that selectively controls broadleaf weeds and nutsedge in labeled crops. YUKON Herbicide is effective on postemergent weed applications. YUKON Herbicide can be absorbed through roots, shoots and foliage and is translocated within the plant. The level of weed control following YUKON Herbicide application is dependent upon application rate, weed species, size at application time, and growing conditions. Heavy infestations should be treated early before the weeds become too competitive with the crop. Where allowed, sequential applications may be required to control later weed flushes. Soon after YUKON Herbicide is applied, growth of susceptible weeds is inhibited, and susceptible weeds are no longer competitive with the crop. Following growth inhibition, the leaves and growing points begin to discolor. Complete control typically occurs within 7 - 14 days depending on the weed size, species and growing conditions.

WEED CONTROLLED	CROPS	Rate per Acre (oz/Acre)
Groundcherry (<i>Physalis</i> spp.) Including Wright Groundcherry	CORN, FIELD (SEED, GRAIN, FORAGE, FODDER, SILAGE, AND STOVER), CROP GROUP 17 PASTURE, RANGELAND, CRP AND FORAGE GRASSES/HAY (All grasses/hay, (green or cured) Except those that can produce grain including; All rices, barley, buckwheat, pearl millet, oats, popcorn, rye, triticale, and wheat) CROP STUBBLE AND FALLOW GROUND	4 - 8
	SORGHUM, (MILO) (SEED, GRAIN, FORAGE, FODDER, SILAGE, AND STOVER)	4-6
	MILLET, PROSO	3-4

Follow all directions for use, restrictions and precautions given on the Yukon Herbicide federal label.
