

## Section 2(ee) Recommendation

Date: October 31, 2024

Product: Actigard® 50WG Plant Activator  
EPA Reg. No. 100-922

Use: **Reduced Rate for Bacterial Leaf Spots in Strawberry**

State: Florida

### Directions for Use

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- The user must refer to the federally approved labels for the above noted product and read and follow all directions for use, restrictions, and precautions.
- The user should have this recommendation in its possession at the time of use.
- This recommendation for use of this product is permitted under Section 2(ee) of FIFRA and has not been submitted to or been approved by EPA.

For suppression of bacterial leaf spots (*Pseudomonas spp.*) and Angular leaf spot (*Xanthomonas fragariae*) in Strawberry, apply Actigard 50WG Plant Activator at 0.33 – 0.75 oz/acre. Scout fields regularly for Angular leaf spot after plant establishment. Begin applications when disease appears, and continue on a 7- to 14-day interval.
