

neptune[®]

superior
turf wetting
agent

FOR PROFESSIONAL OR INDUSTRIAL USE ONLY

CONTAINS NON-PLANT FOOD INGREDIENT

Active Ingredient	
Polyglycol Ether Ester	98%
Inert Ingredients	2%

KEEP OUT OF REACH OF CHILDREN

WARNING

Precautionary Statements: Causes skin irritation. Causes eye irritation. Wash hands thoroughly after handling. Wear protective gloves. **Environmental Precautions:** Prevent further leakage or spillage if safe to do so. Do not contaminate water. Do not allow to enter drains, sewers, or watercourses.

Personal Protective Equipment: Wear protective gloves/protective clothes/eye protection.

First Aid: If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

GENERAL INFORMATION: NEPTUNE[®] is an advanced polymer surfactant chemistry designed to support a high level of superior turf while producing laminar moisture throughout the root zone. NEPTUNE is recommended for use on turf grasses where superior demands are required such as golf courses, athletic fields, and other highly maintained areas. NEPTUNE will improve root zone moisture distribution in sand-based soil types and under severe stress conditions. NEPTUNE will provide efficient irrigation use and water savings. When NEPTUNE is applied in a program prior to the onset of hydrophobic conditions, it will prevent their effects. NEPTUNE has been shown to enhance turf vigor when used in monthly programs.

DIRECTIONS FOR USE: Standard Program: Apply 6 fl oz of NEPTUNE per 1000 sq. ft. in 2 gallons of water (185 mL/100 m² in 8 L of water). Apply monthly, beginning at least one month prior to the onset of stress conditions. Irrigation should be applied before next mowing to enhance product movement into the soil. **Tank Mixing:** NEPTUNE may be tank mixed with other commonly used turf chemicals and fertilizers at rates not to exceed 6 oz per 1000 sq. ft. If applicator is unfamiliar with the performance of this product in tank mixes under user's growing conditions, NEPTUNE should be tested prior to large-scale application. The applicator should always exercise judgement and caution when using this and all other turf products. Tank mixing NEPTUNE with other products is intended as a matter of convenience; this product is not intended to enhance the performance of other tank mixed components.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place. Store in original container. Keep container tightly closed. Do not reuse empty container.

DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Dispose of contents/container on-site or at an approved waste disposal facility. Triple rinse (or equivalent) adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at www.acrecycle.org.

For help with any spill, leak, fire or exposure involving this material, call day or night CHEMTREC — 1-800-424-9300.
