of Oregon.**

ACEPHATE	GROUP	1B	INSECTICIDE
----------	-------	----	-------------

ORTHENE® 97

EPA REG. NO. 5481-8978

EPA SLN NO. OR-160010

FOR CONTROL OF LYGUS BUG ON ALFALFA GROWN FOR SEED

This label is valid until December 31, 2026 or until withdrawn, cancelled, suspended, or otherwise amended

ACTIVE INGREDIENT	By Weight
*Acephate.....	97.4 %
OTHER INGREDIENTS.....	2.6 %
Total.....	100.0 %

*O,S-Dimethyl acetylphosphoramidothioate

KEEP OUT OF REACH OF CHILDREN
CAUTION

ENVIRONMENTAL HAZARDS

Follow all applicable directions, restrictions, and precautions in the Environmental Hazards section of the label affixed to the main container of ORTHENE 97.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This SLN label and the label affixed to the main container of ORTHENE 97 must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on this SLN label and the label affixed to the main container of ORTHENE 97.

PEST CONTROLLED	APPLICATION RATE PER ACRE	DILUTION	APPLICATION INSTRUCTIONS
Lygus Bugs	1 lb	Ground – Apply in 10 to 60 gallons of water per acre. Air - Apply in 5 to 10 gallons of water per acre.	Applications may be made up to 3 days prior to placing bees in or around the field, or after removing bees from the field. Do not make more than two applications per acre per year. Some data indicate that Leafcutter bees and Alkali bees may be more sensitive to acephate exposure than other tested species.

RESTRICTIONS

- 1) Do not exceed a total of 2 pounds of product per acre per year.
- 2) Do not exceed 2 applications per year.
- 3) For repeat applications use a minimum spray interval of 7 days.
- 4) Do not apply this product through any type of irrigation system.

RESIDUAL TOXICITY (RT) INFORMATION:

Residual toxicity is defined as the length of time over which field-weathered foliar residues remain toxic to honeybees, or other species of terrestrial insects. This product has an RT value of greater than 3 days. To avoid residual action against bees, do not introduce leafcutter bees until a period of 72 hours has elapsed.

SPECIAL CROP USE RESTRICTIONS

The pesticide applicator, the producer of the crop, and the seed conditioner must be aware that use of this product according to this labeling is deemed a non-feed/non-food use by the Oregon Department of Agriculture, and is regulated by the Oregon Administrative Rule (OAR) 603-057-0535, Pesticide Use On Crops Grown For Seed. If the applicator of this pesticide is not the producer, the applicator must provide a copy of this labeling to the producer of the crop. Producers of this crop who use this product, or cause the product to be used on a field they operate, must provide a copy of this pesticide label to the seed conditioner.

This pesticide does not have an established pesticide residue tolerance for this crop. Consequently, no portion of this seed crop may be used or distributed for food or feed for 1 year (365 days) after the last application of this product. This restriction pertains to, but is not limited to, green chop, forage, hay, pellets, meal, whole seed, cracked seed, straw, roots, bulbs, foliage or seed screenings, and to the grazing of the crop field, stubble or regrowth. All seed screenings shall be disposed of in such a manner that screenings cannot be distributed or used for food or feed purposes, as indicated in OAR 603-057-0535. Additional regulations concerning seed screenings are stated in OAR 603-057-0535.

Any seed from a field treated with this pesticide product shall bear specific and conspicuous container labeling, or if shipped in bulk, on the shipment invoice or bill of lading. The labeling shall contain the following statement:

"This seed was produced using one or more products for which the United States Environmental Protection Agency has not established pesticide residue tolerances. This seed, in whole, as sprouts, or in any form may not be used for human consumption or animal feed. Failure to comply with this condition may violate requirements of the Federal Food and Drug Administration, the Oregon Department of Agriculture and other regulatory agencies."
