Fontelis[®] FUNGICIDE

EPA Reg. No. 352-834

This supplemental label expires on April 30, 2027, and must not be used or distributed after this date.

**FOR USE IN OIL SEEDS, INCLUDING CANOLA, COTTON AND SUNFLOWER
(Not Registered for Use in California)**

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in possession of the user at the time of application.
- Read the label affixed to the container for Fontelis[®] before applying.
- Use of Fontelis according to this labeling is subject to the use precautions and limitations imposed by the label affixed to the container for Fontelis.

Product Information

Fontelis is a broad-spectrum fungicide, recommended for control of foliar and soil-borne plant diseases in many listed crops, and has preventive, curative, and locally systemic activity. Fontelis must be applied in a regularly scheduled protective spray program in rotation with other fungicides. See directions below for specific crop/disease recommendations.

Fontelis can be applied with commonly used ground equipment, hose-end, pressurized, and greenhouse sprayers, air or chemigation equipment, except as otherwise directed, using sufficient water to obtain thorough coverage of plants. Thorough coverage of all foliage is essential for effective disease control. Maintain agitation during mixing and application to assure uniform product suspension.

Use Restrictions

- Use this product only in commercial and farm plantings.
- Do not use for home plantings.
- Do not formulate this product into other end-use products.
- Do not sell, sell into, distribute, or use in Nassau or Suffolk Counties, New York.
- In New York, do not exceed 61 fl oz (0.80 lb ai) per acre per year.
- Not approved for use in the State of California.

Fontelis fungicide labeled Crop and Crop Groups, Pre-Harvest Intervals, Maximum Single Application Rates, and Total Rates allowed per year

Crop, Crop group or subgroup with examples [†]	Minimum Time from Application to Harvest (PHI days)	Maximum Rate per Acre per Application fl oz product (lb active ingredient)	Maximum Product per Acre per Year fl oz product (lb active ingredient)
Canola*	21 days	20 fl oz (0.26 lb)	41 fl oz (0.53 lb)
Cotton*	21 days	24 fl oz (0.31 lb)	72 fl oz** (0.94 lb)**
Sunflower*	14 days	30 fl oz (0.39 lb)	61 fl oz (0.80 lb)

*Not for use in California

**In New York, do not exceed 61 fl oz (0.80 lb ai) per acre per year.

[†]Refer to the crop specific direction for use tables to determine exactly which crop species in each crop area or crop group are included.

Use Rates and Application Instructions

Oil Seeds*, including: Canola, Cotton, and Sunflower

Use directions for specific crops are provided below.

Crop/Crop Group	Target Diseases	Use Rate per Acre (fl oz)	Application Instructions
* Canola varieties (rapeseed) ; borage; crambe; cuphea; echium; flax seed; gold of pleasure; hare's ear mustard; lesquerella; lunaria; meadowfoam; milkweed; mustard seed; oil radish; poppy seed; sesame; sweet rocket; cultivars, varieties, and/or hybrids of these	Alternaria blackspot, (<i>Alternaria</i> spp.)	14 - 20 fl oz (0.18 – 0.26 lb ai/A)	Begin applications prior to disease development and continue on a 7- to 14-day interval. Use higher rate and shorter interval when disease pressure is high. Sclerotinia stem rot: Begin application at 20-50% bloom prior to disease development and continue on a 7- to 14-day interval. Use higher rate and shorter interval when disease pressure is high.
	Sclerotinia stem rot, white mold (<i>Sclerotinia</i> spp.)	16 - 20 fl oz (0.21 – 0.26 lb ai/A)	
RESTRICTIONS: Make no more than 2 sequential applications of Fontelis fungicide before switching to a fungicide with a different mode of action. Minimum time (PHI) between application and harvest is 21 days. Do not exceed 41 fl oz (0.53 lb ai)/acre per year.			

*Not for use in California

Crop/Crop Group	Target Diseases	Use Rate per Acre (fl oz)	Application Instructions
*Cotton ; cultivars, varieties, and/or hybrids of these	Boll Rot (<i>Diplodia</i> , <i>Fusarium</i>) Foliar disease complex Alternaria leaf and stem spots (<i>Alternaria</i> spp.) (<i>Cercospora</i> spp.) Stemphylium leaf spot (<i>Stemphylium</i> spp.) Hardlock (<i>Fusarium</i> spp.)	16 - 24 fl oz (0.21 – 0.31 lb ai/A)	Begin applications prior to disease development and continue on a 7- to 14-day interval. Use higher rate and shorter interval when disease pressure is high.
	Soil-borne diseases Seedling and root rot (<i>Rhizoctonia solani</i>)	0.7 - 1.6 fl oz/1000 row ft (0.009 – 0.021 lb ai/1000 row ft)	At-plant, in-furrow application. Maximum rate per acre per application is 24 fl oz. See soil-borne disease section instructions.
RESTRICTIONS: Make no more than 2 sequential applications of Fontelis before switching to a fungicide with a different mode of action. Minimum time (PHI) between application and harvest is 21 days. Do not exceed 72 fl oz (0.94 lb ai)/acre per year. In New York, do not exceed 61 fl oz (0.80 lb ai) per acre per year.			

*Not for use in California

Crop/Crop Group	Target Diseases	Use Rate per Acre (fl oz)	Application Instructions
* Sunflower ; calendula; castor oil plant; Chinese tallowtree; euphorbia; evening primrose; jojoba; niger seed; rose hip; safflower; stokes aster; tallowwood; tea oil plant; vernonia; cultivars, varieties, and/or hybrids of these	Alternaria leaf spot (<i>Alternaria</i> spp.) Powdery mildew (<i>Erysiphe cichoracearum</i>) Rust (<i>Puccinia helianthi</i> , <i>Uromyces</i> spp.) Septoria leaf spot (<i>Septoria</i> spp.)	10 - 30 fl oz (0.13 – 0.39 lb ai/A)	Begin applications prior to disease development and continue on a 7- to 14-day interval. Use higher rate and shorter interval when disease pressure is high.
	Sclerotinia stem rot (<i>Sclerotinia</i> spp.)	16 - 30 fl oz (0.21 – 0.39 lb ai/A)	
RESTRICTIONS: Make no more than 2 sequential applications of Fontelis before switching to a fungicide with a different mode of action. Minimum time (PHI) between application and harvest is 14 days. Do not exceed 61 fl oz (0.80 lb ai)/acre per year.			

*Not for use in California
