SUPPLEMENTAL LABELING

PREQUEL™ HERBICIDE FOR CONTROL OF BROADLEAF WEEDS AND GRASSES IN FIELD CORN IN THE STATE OF COLORADO

RESTRICTED USE PESTICIDE

May injure (phytotoxic) susceptible non-target plants.

For retail sale to and use only by certified applicators or persons under their direct supervision and only for those uses covered by the Certified Applicator's certification. Commercial and certified applicators must ensure that all persons involved in these activities are informed of the precautionary statements.

FOR DISTRIBUTION AND USE ONLY IN THE STATE OF COLORADO

PREQUEL™ HERBICIDE

EPA Reg. No. 352-779

FOR CONTROL OF BROADLEAF WEEDS AND GRASSES IN FIELD CORN IN THE STATE OF COLORADO

DIRECTIONS FOR USE

This product bulletin serves as supplemental labeling for use of PREQUEL™ herbicide in Colorado. The following restrictions include specific requirements beyond those found under the "Restrictions For Use On Field Corn" section of the container label. Refer to the PREQUEL™ herbicide label and technical bulletins for full descriptions of use restrictions.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

ENVIRONMENTAL PRECAUTIONS

Refer to the container label for additional use precautions and directions. Agricultural chemicals have the potential to move into shallow groundwater. The following restrictions have been developed to protect drinking water supplies.

Do not wash, load, or empty application equipment near any well, as this practice is a potential source of ground water contamination. In fields having coarse soils, special care must be taken not to over-irrigate, since substantial over-irrigation promotes the leaching of chemicals.

SOIL TYPE RESTRICTIONS

If the water table (i.e. level of saturation) is less than 25 feet below the ground surface, do not apply to the following vulnerable sandy loam, loamy sand or sand soils. If the water table is

unknown, do not apply PREQUEL™ herbicide to a restricted soil. If a field contains several soil types, one of which is a vulnerable soil listed below, and the water table is less than 25 feet, do not apply PREQUEL™ herbicide.

PLANT BACK RESTRICTIONS

- Only corn may be planted back within 6 months of a PREQUEL™ herbicide application.
- Dry beans, sugarbeets and melons can not be planted back within 18 months of a PREQUEL™ herbicide application.
- For dryland agriculture, only corn can be planted back within 16 months of a PREQUEL™ herbicide application.
- Do not rotate to other crops within 6 months after application of PREQUEL™ herbicide.

IMPORTANT

BEFORE USING THIS PRODUCT, READ AND FOLLOW ALL APPLICABLE DIRECTIONS, RESTRICTIONS AND PRECAUTIONS ON THE EPA-REGISTERED LABEL.

This bulletin contains new or supplemental instructions for use of this product which do not appear on the EPA-registered package label. Follow the instructions carefully.

This labeling must be in the possession of the user at the time of pesticide application.

Read the Limitation of Warranty and Liability on the Section 3 Federal product label before buying or using THIS product. If terms are not acceptable, return the unopened package at once to Seller for full refund of purchase price paid. Otherwise, use by Buyer or any other User constitutes acceptance of the terms of the Limitation of Warranty and Liability on the Section 3 Federal product label.
