FUNGICIDE

For Distribution and Use Only Within the State of Oregon

Rally® 40WSP

EPA Reg. No. 62719-410

EPA SLN No. OR-240005

For Control of Powdery Mildew (*Erysiphe heraclei*) in Carrots Grown for Seed

Expiration Date: This label is valid until December 31, 2028 or until otherwise amended, withdrawn, canceled, or suspended.

Use of Rally® 40WSP fungicide on carrots grown for seed may result in crop injury, crop yield reduction and/or crop loss. Read and understand the Special Conditions and Risks of Use section on this label before using this product in accordance with this FIFRA Section 24(c) Special Local Need label.

Active Ingredient

myclobutanil: a-butyl-a-(4-chlorophenyl)-1H-
1,2,4, triazole-1-propanenitrile 40%
Other Ingredients 60%
Total 100%

Keep Out of Reach of Children

CAUTION

Environmental Hazards

Follow all applicable directions, restrictions, and precautions in the Environmental Hazards section of the label affixed to the main container of Rally® 40WSP (EPA Reg. No. 62719-410).

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This SLN label and the label affixed to the main container of Rally 40WSP must be in the possession of the user at the time of pesticide application.

Follow all applicable directions, restrictions, Worker Protection Standard requirements and precautions on this SLN label and the label affixed to the main container of Rally 40WSP.

Rally 40WSP is a systemic, protectant and curative fungicide. Optimum disease control is achieved when the fungicide is applied in a regularly scheduled preventative spray program, starting at the first sign of disease development and continuing until the threat of further disease development is past.

For control of powdery mildew (*Erysiphe heraclei*) in carrots grown for seed apply 5 to 7.5 oz of Rally 40WSP (0.125 to 0.187 lb active ingredient) in a minimum of 20 gallons of water per acre for ground application or in a minimum of 10 gallons of water per acre for aerial application. Begin applications prior to or at the start of disease development and continue applications on a 14- to 21-day application schedule. Use higher labeled rate or shorter spray interval on susceptible varieties or under heavy disease pressure.

Specific Use Restrictions:

- Do not apply more than 15 oz of Rally 40WSP (0.375 lb active ingredient) per acre per year.
- **Chemigation:** Do not apply this product through any type of irrigation system for the use described in this Special Local Need labeling.
- **Rotation Crops:** Fields treated with Rally 40WSP can be rotated at any time to crops that are included on the label affixed to the main container. All other crops may be planted 30 days after the final application of Rally 40WSP.

Special Crop Use Restrictions:

The pesticide applicator, the producer of the crop, and the seed conditioner must be aware that use of this product according to this labeling is deemed a nonfeed/non-food use by the Oregon Department of Agriculture and is regulated by Oregon Administrative Rule (OAR) 603-057-0535, Pesticide Use on Crops Grown for Seed. If the applicator of this pesticide is not the producer, the applicator must provide a copy of this labeling to the producer of the crop. Producers of this crop who use this product, or cause the product to be used on a field they operate, must provide a copy of this pesticide label to the seed conditioner.

This pesticide does not have an established pesticide residue tolerance for this crop. Consequently, no portion of this seed crop may be used or distributed for food or feed for 1 year (365 days) after the last application of this product. This restriction pertains to, but is not limited to, green chop, forage, hay, pellets, meal, whole seed, cracked seed, straw, roots, bulbs, foliage or seed screenings, and to the grazing of the crop field, stubble or regrowth. All seed screenings shall be disposed of in such a manner that the screenings cannot be distributed or used for food or feed purposes, as indicated in OAR 603-057-0535. Additional regulations concerning seed screenings are stated in OAR 603-057-0535.

Any seed from a field treated with this pesticide product shall bear specific and conspicuous container labeling, or if shipped in bulk, on the shipment invoice or bill of lading. The labeling shall contain the following statement:

"This seed was produced using one or more products for which the United States Environmental Protection Agency has not established pesticide residue tolerances. This seed, in whole, as sprouts, or in any form, may not be used for human consumption or animal feed. Failure to comply with this condition may violate requirements of the Federal Food and Drug Administration, the Oregon Department of Agriculture and other regulatory agencies."

Special Conditions and Risks of Use

USE OF Rally 40WSP (THE "PRODUCT") ON CARROTS GROWN FOR SEED (THE "CROP") MAY RESULT IN CROP INJURY, CROP YIELD REDUCTION AND/OR CROP LOSS. READ AND UNDERSTAND THESE SPECIAL CONDITIONS AND RISKS OF USE BEFORE USING THE PRODUCT ON THE CROP.

Corteva Agriscience makes the Product available for use in the manner described in this Special Local Need Labeling on the basis that, in the sole opinion of the user, the benefits and utility derived from the use of the Product on the Crop outweigh the potential risk of Crop injury or loss. The decision to use this Product in the manner described in this Special Local Need Labeling must be made by each individual user on the basis of anticipated benefits versus (i) the risk of Crop injury, Crop yield reduction and Crop loss, (ii) the severity of the target pest infestation, (iii) the cost and availability of alternative pest controls, and (iv) any other relevant factors.

By purchasing the Product for use, or using the Product, in the manner described in this Special Local Need Labeling, you acknowledge and accept that:

- (1) You assume all risk of Crop injury, Crop yield reduction and Crop loss;**
- (2) Corteva Agriscience does not make, and does not authorize any agent or representative to make, any representations or recommendations regarding the use of this Product on the Crop other than the statements on this Special Local Need Labeling;**
- (3) Corteva Agriscience does not make, and does not authorize any agent or representative to make, any warranties, express or implied, with respect to the use of the Product on the Crop and disclaims all warranties, express or implied, including any implied warranties of fitness for a particular purpose or merchantability;**
- (4) Corteva Agriscience disclaims all liability for any damages, losses, expenses, claims or causes of actions arising out of or relating to Crop injury, Crop yield reduction and/or Crop loss;**
- (5) These Special Conditions and Risks of Use supersede any contrary representations or recommendations by Corteva Agriscience, its agents or representatives, and any provisions in or on any Product literature or labeling including any provisions on the label affixed to the Product container.**

If these Special Conditions and Risks of Use are not acceptable, the unopened Product may be returned to the seller for a refund or used for a different labeled use in accordance with the label affixed to the Product container. These Special Conditions and Risks of Use are required by Corteva Agriscience and not specified by the U.S. EPA or the State of Oregon.
