

# FIFRA 24 (c) Special Local Need Label (SLN)

For distribution and use only in the State of California.

For use on Easter Lily Bulbs as an aid in the control of Root rot.

Drexel®

***Captan 4L***

EPA Reg. No. 19713-644

SLN# CA-170014

## DANGER / PELIGRO

This label expires and must not be distributed or used in accordance with this SLN registration after December 31, 2027.

### Directions for Use

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This state-specific Section 24(c) labeling must be in the possession of the user at the time of application.
- Follow all applicable directions, restrictions, and precautions on the EPA registered label for EPA Reg. No. 19713-644.

### USE INFORMATION

Captan is not a stand-alone product for control of the entire complex of rot organisms. Use Captan in combination with other fungicides registered for use in Easter Lily bulbs. For additional information on products that Captan should be combined with, contact the Easter Lily Research Foundation.

### CROP USE

#### Directions for Aid in Controlling Root Rot in Easter Lily Bulbs:

Mix 1 gallon of this product with enough water to make a 100 gallon dip solution. Soak bulbs for a minimum of 15 minutes before planting.

Apply the remaining post-application mixture or "left-over" solution in-furrow over the bulbs or over the top of the planting beds.

When disposing the post-application mixture, do not exceed the rate of 100 gallons of solution per acre or the maximum per acre rate of any other product in the tank mix.

#### Specific Use Restriction:

Treated bulbs must be labeled in accordance with the U.S. Seed Act as follows: "These bulbs are treated with Captan after the Manufacturer's labeled rate. Do not use for food, feed or oil purpose."
