within the state of California

EPA REGISTRATION NO. 5481-621

FOR USING A SPRAY ADJUVANT/ADDITIVE ON TREE CROPS AND CITRUS

- It is a violation of Federal law to use this product inconsistent with its labeling.
- This recommendation must be in the possession of the user at the time of pesticide application
- Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label
- This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by U.S. EPA.

Physical Or Chemical Hazards

Do not use or store near heat or open flame. This product is reactive toward and should be stored away from strong oxidants.

DIRECTION FOR USE

Using a Spray Adjuvant/Additive With ABBA Ultra On Tree Crops And Citrus Almonds, Apples, Avocados, Citrus, Pears, Plums, Prunes, and Walnuts

In addition to the container label instruction for the use of a horticultural spray oil (not a dormant oil) with ABBA Ultra on tree crops and citrus, this FIFRA Section 2(ee) also allows the use of a spray adjuvant/additive approved for use on the crops listed that has spreading and penetrating properties to maximize leaf uptake.

Please contact your local AMVAC representative or PCA for specific guidance by crop.

RESTRICTIONS

- Carefully follow the directions for use and precautions on the spray adjuvant/additive label as well as the precautions on the official spray guides or on product labels.
- If applications are made without horticultural spray oil or a spray adjuvant having spreading and penetrating properties to maximize leaf update, reduced efficiency and/or reduced residual control could result.

 Warning: This product can expose you to Avermectin B1 (Abamectin), a chemical known to the State of California to cause to cause birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov

Read **LIMITATION WARRANTY AND DISCLAIMER** in the label booklet for Abba Ultra Miticide/insecticide before using.
