READ AND FOLLOW THE ENTIRE LABEL BOOKLET FOR THIS PRODUCT BEFORE PROCEEDING WITH THE USE DIRECTIONS CONTAINED IN THIS LABELING.

DIRECTIONS FOR USE

This label must be in the possession of the user at the time of application.

ALL APPLICABLE DIRECTIONS, RESTRICTIONS AND PRECAUTIONS IN THE PRODUCT LABEL BOOKLET MUST BE FOLLOWED, INCLUDING STATEMENTS PERTAINING TO THE WORKER PROTECTION STANDARDS, ON THE REGISTERED LABEL.

Wrath can be applied to all crops via spray at a rate of 28-64 ounces per acre per application depending on the severity of the insect pressure with all mites including broad mite. Wrath is designed to control multiple insects listed on the main label, the rate shall be based on the level of pressure with standard application of 28-32 ounces per acre and a wash of outbreak control level of 48 ounces per acre. Application should be made as close to onset of insects being present and continued every 7-14 days for superior control. Applications can be made anytime during season with enough water to provide through coverage. The use of a surfactant is suggested to increase the efficacy of Wrath. Wrath contains a 0 pre-harvest, 0 re-entry and has no minimum risk level issues for export. .

NOTICE

Read the "WARRANTY DISCLAIMER" and "LIMITATION OF LIABILITY" in the label booklet for this product before using this product. Those terms apply to this supplemental labeling and if those terms are not acceptable, return the product unopened at once.
