Directions for Use

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- The user must refer to the federally approved labels for the above noted product and read and follow all directions for use, restrictions, and precautions.
- The user should have this recommendation in its possession at the time of use.
- This recommendation for use of this product is permitted under Section 2(ee) of FIFRA and has not been submitted to or been approved by EPA.

For control of Downy Mildew (*Peronospora parasitica*) and suppression of Black Rot (*Xanthomonas campestris*) in Brassicas, apply Actigard 50WG Plant Activator at 0.33 - 1 oz/acre. Begin applications 7-10 days after thinning. Apply preventatively prior to disease development and continue on a 7-14 day interval.
