#### ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Loyant CA before applying. Carefully follow all precautionary statements and applicable use directions.
- Except as directed in this supplemental labeling, use of Loyant CA according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the container for Loyant CA.

#### Directions for Use

Refer to the main Loyant CA product label for Precautions and Restrictions, Mixing Instructions, and Application Directions.

Apply Loyant CA herbicide to rice or wild rice at or after 2 leaf stage with no exposed roots at 1.33 pt/acre by ground in a minimum of 10 gallons/per acre to control or suppress listed aquatic weeds that are emerged from the water. Listed weeds which are not emerged from the water may not be controlled. Only one application of Loyant CA may be made per year. Use of an agriculturally approved methylated seed oil adjuvant at a rate of 0.5 pints per acre is recommended to be added to Loyant CA. Do not use pure organosilicone surfactants in spray mixtures of this product. Read and follow all use directions and precautions on adjuvant labels. See main Loyant CA label for information on drift reduction.

DO NOT TANK MIX ANY PESTICIDE PRODUCT WITH THIS PRODUCT without first referring to the following website for the specific product: [www.LoyantCATankmix.com](http://www.LoyantCATankmix.com). This website contains a list of active ingredients that are currently PROHIBITED from use in tank mixture with this product.

- Do not apply this product through any type of irrigation system.
- Do not use treated water for any form of irrigation.
- Do not use treated water for hydroponic farming.
- Do not rotate treated land to crops other than rice or wild rice for 3 months following application.
- Do not apply to rice or wild rice used for seed production.
- Do not tank mix Loyant CA with malathion or methyl parathion. Do not make an application of malathion or methyl parathion within 7 days of an application of Loyant CA.
- Do not apply by air.

### Special Conditions and Risks of Use

USE OF Loyant CA HERBICIDE (THE "PRODUCT") ON CULTIVATED RICE OR WILD RICE (THE "CROP") MAY RESULT IN CROP INJURY, CROP YIELD REDUCTION AND/OR CROP LOSS. READ AND UNDERSTAND THESE SPECIAL CONDITIONS AND RISKS OF USE BEFORE USING THE PRODUCT ON THE CROP.

Corteva Agriscience makes the product available for use in the manner described in this Special Local Need Labeling on the basis that, in the sole opinion of the user, the benefits and utility derived from the use of the Product on the Crop outweigh the potential risk of Crop injury or loss. The decision to use this Product in the manner described in this Special Local Need Labeling must be made by each individual user on the basis of anticipated benefits versus (i) the risk of Crop injury, Crop yield reduction and Crop loss, (ii) the severity of the target pest infestation, (iii) the cost and availability of alternative pest controls, and (iv) any other relevant factors.

By purchasing the Product for use, or using the Product, in the manner described in this Special Local Need Labeling, you acknowledge and accept that:

- (1) You assume all risk of Crop injury, Crop yield reduction and Crop loss;
- (2) Corteva Agriscience does not make, and does not authorize any agent or representative to make, any representations or recommendations regarding the use of this Product on the Crop other than the statements on this Supplemental labeling;
- (3) Corteva Agriscience does not make, and does not authorize any agent or representative to make, any warranties, express or implied, with respect to the use of the Product on the Crop and disclaim all warranties, expressed or implied, including any implied warranty of merchantability;
- (4) Corteva Agriscience disclaims all liability for any damages, losses, expenses, claims or causes of actions arising out of or relating to Crop injury, Crop yield reduction and/or Crop loss;
- (5) These Conditions and Risks of Use for Special Local Need supersede any contrary representations or recommendations by Corteva Agriscience, or its respective agents or representatives, and any provisions in or on any Product literature or labeling including any provisions on the label affixed to the Product container.

If these Special Conditions and Risks of Use are not acceptable, the unopened Product may be returned to the seller for a refund or used for a different labeled use in accordance with the label affixed to the Product container. These Special Conditions and Risks of Use for Special Local Need are required by Corteva Agriscience and not specified by the US EPA or the State of California.
