

GLORY™
EPA REG. NO. 66222-106

FIFRA §2(ee) RECOMMENDATION

For Fall or Early Spring Application in Corn or Soybeans

FIFRA Section 2(ee) Recommendation for use in Iowa, Illinois, Indiana, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, Ohio, South Dakota and Wisconsin only

DIRECTIONS FOR USE

- It is a violation of Federal law to use this product inconsistent with its labeling.
- This recommendation must be in the possession of the user at the time of pesticide application.
- Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered labels.

This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by U.S. EPA.

Glory can be used alone or in combination with other registered herbicides as part of a fall or spring applied (30 days before planting) herbicide program for burndown of existing vegetation prior to crop emergence in conservation tillage systems. Fall applications can be made anytime after harvest before ground freeze-up and up to 30 days prior to planting in the spring. Glory may be tank mixed with "Roundup Brand" herbicides, Parazone 3SL, and other herbicides containing paraquat-dichloride for control of emerged weeds prior to field corn or soybean emergence. Glory tank mixes with 2,4-DB, Fusion, Poast Plus, or Select may also be used in soybeans for control of emerged weeds prior to crop emergence. Glory burndown tank mixes can be applied before planting or prior to crop emergence in the following areas:

Field Corn: Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, Ohio, South Dakota, and Wisconsin.

Soybeans: All areas for all products except Fusion tank mixes. See Fusion section on the production label for recommended states.

Application: Spring applications of Glory may be applied up to 30 days prior to planting or preemergence. Apply only by ground equipment when Glory is used for burndown of existing vegetation in conservation tillage systems. Glory tank mix partner burndown rates are listed in the following three tables.

GLORY BURNDOWN RATES Field Corn and Soybeans		
Crops	Application Timing	Glory Rate (oz./A)
Field Corn: Iowa, Kansas, Missouri, Nebraska, South Dakota	Preplant (0 to 30 days)	2 to 5½
	Preemergence	
Field corn: Illinois, Indiana, Kentucky, Michigan, Minnesota, Ohio, Wisconsin	Preplant (10 to 30 days)	2 to 5½
	Preplant (0 to 9 days)	2 to 4
	Preemergence	
Soybeans	Preplant (0 to 30 days)	2 to 5½
	Preemergence	

SPECIAL PRECAUTIONS: Do not apply these treatments after crop emergence. Observe all precautions and limitations on the labeling of all products used in tank mixtures. Refer to the GENERAL INFORMATION section of this label for additional information, precautions, and limitations.

Field Corn:

1. Do not apply on coarse-textured soils with less than 1.5% organic matter.
2. Do not apply more than 4 oz. of Glory per acre on soils with less than 2% organic matter.
3. Do not apply on soils having pH 7.0 or greater.
4. Do not apply more than 5½ oz. Glory (0.25 pound active ingredient) per acre per growing season.
5. Corn seed should be planted a minimum of 1½ inches deep.
6. Glory may only be used in hybrid seed corn production fields if both inbred parents are known to be tolerant to Glory.

Soybeans:

1. Apply only 2,4-D low volatile ester formulations which are registered and recommended for preplant or burndown use in soybeans.
2. Do not apply tank mixture containing 2,4-D LVE if wind is blowing toward desired susceptible plants (i.e. cotton, tobacco, tomato, etc.) or when wind speeds exceed 6 miles per hour.

Feeding Restrictions: Corn treated with Glory may be harvested for silage or grain 60 days after treatment. Soybean vines or hay treated with Glory may be grazed or fed to livestock 40 days after application. Do not feed hay, forage, fodder, or graze 2,4-D-, Select-, or Fusion-treated vegetation. Follow the most restrictive preharvest interval of all products used in a tank mixture.

Read the “**LIMITATION OF WARRANTY AND LIABILITY**” in the label booklet for Glory before using.
