

Boscalid	Group	7	Fungicide
Pyraclostrobin	Group	11	Fungicide

## FIFRA Sec. 2(ee) Recommendation

# Pristine®

## Fungicide

### For Control of Red Leaf Blotch (*Polystigma amygdalinum*) on Almonds in California.

This Section 2(ee) Recommendation expires on December 31, 2028.

**EPA Reg. No. 7969-199**

**This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the EPA.**

**All applicable directions, restrictions, precautions, and Conditions of Sale and Warranty on the EPA registered label are to be followed.**

Information contained in this Section 2(ee) Recommendation is not intended to replace or amend any product labeling. Always read and follow all label directions when using any pesticide alone or in tank mix combinations.

The user must have this recommendation in their possession at the time of use.

### Directions For Use

Apply **Pristine® fungicide** at 14.5 fl ozs/A from petal fall to five weeks post petal fall (5WPPF) in orchards for control of Red Leaf Blotch (RLB). **Pristine** should be used as part of a comprehensive IPM strategy against this emerging disease. Follow container label for all application instructions and restrictions.
