

## FIFRA Section 2(ee) Recommendation

**For Control of Root Mealybugs on Listed Food and Nonfood Crops Grown in Indoor/Outdoor Nurseries, Greenhouses, Shadehouses, and Interiorscapes**

**FOR USE AND DISTRIBUTION IN THE STATE OF TEXAS ONLY  
Expires 12/31/2026**

*This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the US Environmental Protection Agency.*

All applicable directions, restrictions, and precautions on the EPA-registered labels must be followed. Please contact your Certis USA regional sales manager to determine the specific requirements for FIFRA §2(ee) recommendations in your respective state.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

#### *All Listed Crops*

Insect	Application Rate	Use Instructions
Root mealybugs	Drench: 1 – 2 lb per 100 gallons (1.5 – 2.5 oz per gallon)	High pest pressure: apply 2-3 times, 3-5 days apart Low pest pressure: apply every 7-10 days  No limit to application number Agitate drench suspension throughout use. Prepare only as much drench suspension as can be used in one day. Do not use drench suspension for more than one day.  Ensure growing medium is moist prior to application to facilitate the movement of spores throughout the substrate. Apply sufficient volume to ensure thorough wetting of the growing medium but not to the point of leaching. Ensure uniform distribution of applied product.

#### **Crop-Specific Restrictions:**

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high-water mark. Do not contaminate water when disposing of equipment washwater or rinsate.

Refer to EPA-approved label for complete list of **USE RESTRICTIONS**.

**BotaniGard 22WP 2(ee) Root Mealybug (TX)**
