ammoniacal nitrogen

## Date Listed

7-Nov-2024

## Product code

aoj-21000

## Use Class

Crop Fertilizers and Soil  
Amendments

## Expiration

1-Sep-2026

## Restrictions

This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

This liquid fertilizer has been inspected and approved for use in NOP organic production by OMRI.

Executive Director/CEO

Product review is conducted according to the policies in the current *OMRI Policy Manual*© and based on the standards in the current *OMRI Standards Manual*©. This certificate may be out of date. Verify the current certificate online at [OMRI.org](http://OMRI.org), or contact OMRI for verification. OMRI listing is not equivalent to organic certification and is not a product endorsement, and cannot be construed as such. Final decisions on the acceptability of a product for use in a certified organic system are the responsibility of a USDA accredited certification agent. It is the operator's responsibility to properly use the product, including following any restrictions.
