Typical Physical Properties:

Screen Analysis	-6+12
Bulk Density	80 lbs. per cubic foot

DIRECTIONS FOR USE

This product is intended for soil application for correction of multiple deficiencies, as determined by tissue analysis and soil testing, on any agricultural or horticultural crop where a deficiency of boron, copper, manganese and/or zinc may exist. When deficiencies exist, use the following table or consult your local agricultural extension professional or your local professional consultant. **This product is for soil application only.**

Apply **Corn Mix** at the following rates:

APPLICATION RATES PER:

MILD Deficiency	2-4 lbs.
MODERATE Deficiency	4-8 lbs.
SEVERE Deficiency	8-18 lbs.

WARNING: Over-application or excessive use of boron or use on crops other than those listed as having a boron response, can result in boron toxicity and may cause serious crop injury. This product is intended for use in further blending with agricultural grade fertilizers and should be applied evenly. Application equipment should be calibrated to insure targeted rates of application.

Information regarding the contents and levels of metals in this product is available on the internet at: <http://www.aapfco.org/metals.html>

STORAGE AND DISPOSAL

Storage: Store in a well-ventilated place. Keep container tightly closed. Store locked up.

Disposal: Dispose of contents/container to a suitable treatment site in accordance with local/regional/international regulations.

For Chemical Emergency Involving a Spill, Leak, Fire, Exposure or Accident, Call: CHEMTREC 1-800-424-9300.
