

SPECIAL LOCAL NEED 24(C) LABELING

Linex[®] 4L

Agricultural Herbicide

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF WISCONSIN ON POTATOES GROWN ON COARSE-TEXTURED, LOW ORGANIC MATTER SOILS TO CONTROL BROADLEAF AND GRASS WEEDS

EPA Reg. No. 61842-21 EPA SLN No. WI - 210001

This SLN expires and must not be distributed or used in accordance with this SLN registration after 12/31/2025

Directions for Use: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Follow all applicable directions, restrictions, Worker Protection Standard requirements and precautions on the EPA registered label. This labeling must be in the possession of the user at the time of pesticide application. This Section 24(c) SLN label contains new or supplemental instructions for use of this product, in Wisconsin, which do not appear on the EPA-registered label. Follow the instructions carefully.

Do not apply Linex 4L to the following soils if the depth to groundwater is 30 feet or less:

- Sand with less than 3% organic matter
- Loamy sand with less than 2% organic matter
- Sandy loam with less than 1% organic matter

Do not apply Linex 4L in any manner that would contaminate irrigation water used for crops other than corn or water used for domestic purposes.

Do not apply Linex 4L within 150 feet of any well where depth to groundwater is 30 feet or less.

Do not spray over top of emerged potatoes.

Preemergence Application: Make a single application as a broadcast spray after planting but before ground cracking or crop emergence. Apply up to 1 pt. per acre when tank mixing LINEX[®] 4L with another approved herbicide or up to 2 pts. per acre when LINEX[®] 4L is applied alone. When tank mixing LINEX[®] 4L Herbicide with any other approved pesticide, always read and follow all use directions, restrictions, and precautions of both LINEX[®] 4L Herbicide and the tank mix partner(s).

Plant potato seed at least 2 inches deep. If beds are to be dragged and/or hilled, apply after the final dragging or hilling operation. Apply before grasses are 2 inches tall and before broadleaf weeds are 6 inches tall, preferably just before or when weed seedlings emerge. If emerged weeds are present, add 1 pt. surfactant for each 25 gals. spray mixture.

In irrigated areas, best results are obtained when application is made to moist soil, followed within 2 weeks by sprinkler irrigation (or rainfall). On powder dry soils, irrigate prior to herbicide application and follow with sprinkler irrigation to activate the herbicide.

Environmental Hazards

- It is a violation of federal law to harm an endangered species. Use of this product may be in counties which have endangered and threatened species present; therefore applicators should evaluate the areas to be treated and take necessary precautions to avoid harming endangered species or their habitat/environment. Growers who are uncertain of the presence of a protected species should contact the Wisconsin Department of Agriculture, Trade and Consumer Protection at 608-224-4547.

- Linuron is known to leach through soil into groundwater under certain conditions as a result of labeled use on coarse textured soils with low organic matter. This chemical may leach into groundwater if used in areas where soils are permeable, particularly where the water table is shallow.

For product information, call 1-800-525-2803. You may also contact 1-866-374-1975 for emergency medical treatment information.

To the extent consistent with applicable law, Tessenlerlo Kerley, Inc makes this product available to the user and/or grower solely to the extent the benefit and utility, in the sole opinion of the user and/or grower, outweigh the extent of potential injury associated with the use of this product. The decision to use or not to use Linex 4L must be made by each individual Linex 4L user and/or grower on the basis of possible crop injury from Linex 4L, the severity of weed infestation, the cost of alternative weed controls, and other factors. Read the Warranty and Limitation of Damages on the product label before buying or using this product. If terms are not acceptable, return the unopened package at once to Seller for full refund of purchase price paid. Otherwise, use by Buyer or any other User constitutes acceptance of the terms of the Warranty and Limitation of Damages on the product label.
