

TECHNICAL INFORMATION BULLETIN
FOR THE USE OF MAJESTENE® BIOINSECTICIDE
ON BUSHBERRIES

Blueberry, High Bush Blueberry, Currant, Gooseberry, Huckleberry, Elderberry, Juneberry, Ligonberry, Salal

FIFRA Section 2(ee) Recommendation

This recommendation is made as permitted by Section 2(ee) of FIFRA, as amended, and has not been submitted to or approved by the U. S. Environmental Protection Agency.

FOR USE IN ALL STATES WHERE CROP AND PEST(S) EXIST AND WHERE 2(Ee) RECOMMENDATIONS ARE RECOGNIZED.

MAJESTENE®
EPA Reg. No. 84059-14

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Crop	Target Nematodes	Application Method	Product Use Rate per Application	Application Instructions
Bushberries; Blueberry, High Bush Blueberry, Currant, Gooseberry, Huckleberry, Elderberry, Juneberry, Ligonberry, Salal	Suppression of plant parasitic nematodes including root lesion and dagger nematodes	Pre and post-planting applications	1 – 2% v/v 1 - 2 gallons per acre	For application to bushes during transplant and replant - apply Majestene in a concentration of 4-8 quarts per 100 gallons of water (1-2% v/v) into the excavated hole thoroughly saturating the surrounding soil medium prior to transplanting. Additional applications can be made through drip irrigation or micro-emitters during the growing season on a 21-28 day interval as needed to maintain control.
MAJESTENE® has a pre-harvest interval (PHI) of 0 days . Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 4 hours .				

Nematode management considerations - To obtain maximum results in a nematode management program, it is important to take soil samples prior to application to assess nematode populations and determination of an appropriate management strategy. Utilization of the services of a fieldperson or crop consultant who is knowledgeable in nematode management is advised.

All applicable directions, restrictions and precautions on the EPA-registered label are to be followed.

This FIFRA Section 2(ee) recommendation contains new or additional directions for use of this product, which may not appear on the package label. Read and carefully observe the cautionary statements plus all the other information appearing on the product label.

This recommendation must be in the possession of the user at the time of pesticide application.
