PRODUCT INFORMATION BULLETIN

ALLIGARE FLUMIGARD® SC HERBICIDE

EPA Reg. No. 81927-78

FIFRA 2(ee) Recommendation†

For Distribution and Use Only in the State of New Hampshire

For control of Water Violet (*Hottonia palustris*)

ATTENTION

† This recommendation is made as permitted under FIFRA 2(ee) and has not been submitted to or approved by the EPA.

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- Read and follow all applicable directions for use, precautions, and limitations on the product label attached to the container for this product.

EMERGENT WEED CONTROL

FLUMIGARD® SC HERBICIDE may be applied for the control of Water Violet (*Hottonia palustris*).

Surface Application

Apply this product as a broadcast spray at 6 – 12 oz of formulated product (0.19 to 0.38 lb. ai) per acre plus an adjuvant approved for use in aquatics.

Subsurface Application

Apply this product at a rate that will produce an initial concentration of 200 to 400 ppb (of active ingredient flumioxazin) in the water column.

Follow applicable use directions, precautions, and limitations on the FLUMIGARD® SC HERBICIDE product label.
