# Belmont<sup>®</sup> 2.7 FS

*seed treatment fungicide*

for control of seed rot and damping-off diseases of certain crops

ACTIVE INGREDIENT:	% BY WT.
metalaxyl (CAS No. 57837-19-1).....	28.98%*
OTHER INGREDIENTS:.....	71.02%
TOTAL:.....	100.00%

\*Contains 2.65 lbs. metalaxyl per gallon, or 317 grams per liter.

## KEEP OUT OF REACH OF CHILDREN WARNING/AVISO

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.  
(If you do not understand the label, find someone to explain it to you in detail.)

See front Panel for First Aid Instructions and Booklet for Complete Precautionary Statements and Directions for Use.

# PRECAUTIONARY STATEMENTS

## HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**WARNING:** Causes skin irritation. Harmful if swallowed. Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes. Do not get on skin or on clothing.

## PERSONAL PROTECTIVE EQUIPMENT (PPE):

Some materials that are chemical-resistant to this product are listed below.

### Applicators and other handlers must wear:

- Coveralls over short-sleeved shirt and short pants;
- Socks and chemical-resistant footwear;
- Chemical-resistant gloves (barrier laminate, butyl rubber  $\geq$  14 mils, nitrile rubber  $\geq$  14 mils, neoprene rubber  $\geq$  14 mils, natural rubber  $>$  14 mils, polyethylene, polyvinyl chloride (PVC)  $\geq$  14 mils, and/or viton  $\geq$  14 mils ).
- When mixing and loading, and when cleaning equipment, wear a chemical-resistant apron.

**NOTE:** Persons involved in bagging treated seed, sewing or moving bags of treated seed, or cleaning up bagging areas or seed treatment equipment are pesticide handlers and must wear the PPE required on this label for pesticide handlers.

User Safety Requirements:

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS
Users should: <ul style="list-style-type: none"><li>• Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.</li><li>• Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and change into clean clothing.</li><li>• Remove PPE immediately after handling this product. Wash the outside of gloves before removing them. As soon as possible, wash thoroughly and change clothing.</li></ul>

## ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from treated areas. Do not contaminate water when disposing of equipment washwater or rinsate.

Groundwater Advisory: Metalaxyl is known to leach through soil into groundwater under certain conditions as a result of agricultural use. Use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

# DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read all label directions carefully before use.

Do not apply this product in a way that will contact workers or other persons. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

## AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and green-houses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the **restricted entry interval (REI) of 24 hours**. Exception: Once the seeds are planted in soil, the Worker Protection Standard, under certain circumstances, allows workers to enter the treated area if there will be no worker contact with the soil sub-surface or treated seed.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is: coveralls; socks and chemical-resistant footwear; Chemical-resistant gloves; and protective eyewear.

## PRODUCT INFORMATION

**BELMONT® 2.7 FS** is a systemic fungicide seed treatment specifically for control of systemic downy mildews, *Pythium* and *Phytophthora* spp. For control of other soilborne diseases, use in combination with other seed treatment fungicides.

VITAVAX®-34 (carboxin), VITAFLO®-280 (carboxin + thiram), RANCONA® 3.8 FS (ipconazole), RANCONA® SUMMIT (ipconazole + metalaxyl), RANCONA® V 100 PRO FS (ipconazole + carboxin) and RANCONA® V RTU (ipconazole + carboxin + metalaxyl) are compatible with **BELMONT 2.7 FS**. Do not use **BELMONT 2.7 FS** in combination with other seed treatment products unless compatibility and safety to the crop has been verified. Do not mix with any pesticide that has a prohibition against tank-mixing. Observe the most restrictive of labeling limitations and precautions of all products used in mixtures.

**BELMONT 2.7 FS** may be applied on its own, as water-based slurry, or in combination with other registered seed treatment insecticides and fungicides through standard slurry or mist- type commercial seed treatment equipment.

NOTE: **BELMONT 2.7 FS** is a systemic fungicide with a specific mode of action. **BELMONT 2.7 FS** could be subject to development of resistant strains of fungi. Development of resistance cannot be predicted. Therefore, the company cannot assume liability for crop damage resulting from resistant strains of fungi. Consult your State Agricultural Experiment Station or Extension Service Specialist for guidance and ways to control any possible **BELMONT 2.7 FS** resistant strains of fungi which may occur.

FAILURE TO FOLLOW DIRECTIONS ON THIS LABEL MAY RESULT IN CROP INJURY OR POOR DISEASE CONTROL.

## USE RESTRICTIONS

- Seed treated commercially or for sale must be dyed an un-natural color using an EPA approved colorant before being sold. When using formulations that do not contain dye, to comply with 40 CFR 153.155, all seed treated with an economic poison must be colored to distinguish and prevent subsequent inadvertent use as a food for man or feed for animals.
- IN CALIFORNIA: ONLY for use in commercial seed-treatment establishments. NOT allowed for "on-farm" use in California.
- IMPORTANT: MAXIMUM USAGE when applying multiple metalaxyl and mefenoxam containing products to the same crop within the same season: DO NOT apply more than the maximum seasonal total for the active ingredient as stated on the label of the lowest seasonal total on that crop.
- Do not use other metalaxyl or mefenoxam products for control of *Pythium* in water-seeded rice.
- Do not apply **BELMONT 2.7 FS** to spinach which is destined to be grown in the greenhouse.

## SEED CONTAINER LABEL REQUIREMENTS

The Federal Seed Act requires that containers containing treated seeds shall be labeled with the following statements:

- This seed has been treated with metalaxyl fungicide.
- Do not use treated seed for feed, food or oil purposes.

The U.S. Environmental Protection Agency requires the following statements on containers containing seed treated with metalaxyl:

- Store treated seed away from food and feedstuffs.
- When opening this bag or loading/pouring the treated seed/seed-pieces, wear long sleeved shirt, long pants, shoes, socks, chemical-resistant gloves.
- Excess treated seed may be used for ethanol production only if (1) by-products are not used for livestock feed and (2) no measurable residues of pesticide remain in ethanol by-products that are used in agronomic practice.
- Treated seeds exposed on soil surface may be hazardous to wildlife. Cover or collect treated seeds spilled during loading and planting.
- Dispose of all excess treated seed by burying seed away from bodies of water.
- Do not contaminate water bodies when disposing of planting equipment wash waters.
- Do not allow children, pets or livestock to have access to treated seeds.
- Do not use other metalaxyl or mefenoxam products for control of *pythium* in water-seeded rice.
- Do not apply metalaxyl to spinach which is destined to be grown in the greenhouse.

APPLICATION INSTRUCTIONS		
Crop	Application Rate Per 100 lbs of seed	Diseases Controlled
Cotton	0.75 to 1.5 fl oz To deliver 0.0156 - 0.0312 mg ai per seed, apply 0.167 - 0.333 fl oz of product per 100,000 seeds (Based on average of 4,500 seeds per lb)	<i>Pythium</i> seed rot and damping-off
Soybeans	0.75 to 1.5 fl oz To deliver 0.0251 - 0.0502 mg ai per seed, apply 0.038 - 0.075 fl oz of product per 140,000 seeds (Based on average of 2,800 seeds per lb)	<i>Pythium</i> damping-off and early season <i>Phytophthora</i>
Peanuts* *Not registered for use in California	0.75 fl oz To deliver 0.1004 mg ai per seed, apply 1.071 fl oz of product per 100,000 seeds (Based on average of 700 seeds per lb)	<i>Pythium</i> seed rot and damping-off
Rice* *Not registered for use in California	0.75 to 1.5 fl oz To deliver 0.0037 - 0.0075 mg ai per seed, apply 0.040 - 0.080 fl oz of product per 100,000 seeds (Based on average of 18,800 seeds per lb) Note: Do not use other metalaxyl or mefenoxam containing products in water-seeded rice. Containers or bags containing <b>BELMONT 2.7 FS</b> treated rice must be labeled with this restriction	<i>Pythium</i> damping-off
Sorghum / milo Note: Only high quality seed (at least 90% germination) should be treated with <b>BELMONT 2.7 FS</b> .	0.375 to 0.75 fl oz To deliver 0.0020 - 0.0039 mg ai per seed, apply 0.021 - 0.042 fl oz of product per 100,000 seeds (Based on average of 18,000 seeds per lb)	<i>Pythium</i> damping-off
	0.75 to 1.5 fl oz To deliver 0.0039 - 0.0078 mg ai per seed, apply 0.042 - 0.083 fl oz of product per 100,000 seeds (Based on average of 18,000 seeds per lb)	Systemic downy mildew (races susceptible to chemical control, and cultivars which possess sorghum downy mildew resistance)
	1.5 to 3.0 fl oz To deliver 0.0078 - 0.0156 mg ai per seed, apply 0.083 - 0.167 fl oz of product per 100,000 seeds (Based on average of 18,000 seeds per lb)	Systemic downy mildew (races susceptible to chemical control, and cultivars which do not possess sorghum downy mildew resistance)
Sunflowers (oil and confection type)	1.5 to 3.0 fl oz For oil type: To deliver 0.0201 - 0.0402 mg ai per seed, apply 0.214 - 0.429 fl oz of product per 100,000 seeds (Based on average of 7,000 seeds per lb) For confection type: To deliver 0.0402 - 0.0804 mg ai per seed, apply 0.429 - 0.857 fl oz of product per 100,000 seeds (Based on average of 3,500 seeds per lb)	Systemic downy mildew
Beans (except soybeans): Field beans, green beans, chickpeas (garbanzos), kidney beans, lima beans, lupines, navy beans, okra, pole beans, snap beans, string beans, wax beans, and lentils.	0.75 fl oz To deliver 0.0439 mg ai per seed, apply 0.469 fl oz of product per 100,000 seeds (Based on average of 1,600 seeds per lb)	<i>Pythium</i> seed rot and damping-off and early season <i>Phytophthora</i>
Peas: Black-eyed peas, cowpeas, field peas, garden peas	0.75 fl oz For small size seeds (average of 3,300 seeds per lb): To deliver 0.0213 mg ai per seed, apply 0.227 fl oz of product per 100,000 seeds For larger size seeds (average of 2,100 seeds per lb): To deliver 0.0338 mg.ai. per seed, apply 0.361 fl oz of product per 100,000 seeds	<i>Pythium</i> seed rot and damping-off and early season <i>Phytophthora</i>
	1.5 fl oz For field peas: To deliver 0.0426 mg ai per seed, apply 0.455 fl oz of product per 100,000 seeds (Based on average of 3,300 seeds per lb) For garden peas: To deliver 0.0676 mg ai per seed, apply 0.721 fl oz of product per 100,000 seeds (Based on average of 2,080 seeds per lb)	Systemic downy mildew and <i>Pythium</i> damping- off

Crop	Application Rate Per 100 lbs of seed	Diseases Controlled
Corn, sweet	0.75 fl oz To deliver 0.0223 mg ai per seed, apply 0.238 fl oz of product per 100,000 seeds (Based on average of 3,150 seeds per lb)	<i>Pythium</i> damping-off
	1.5 fl oz To deliver 0.0446 mg ai per seed, apply 0.476 fl oz of product per 100,000 seeds (Based on average of 3,150 seeds per lb)	Systemic downy mildew
Corn, field	0.75 fl oz To deliver 0.0419 mg ai per seed, apply 0.446 fl oz of product per 100,000 seeds (Based on average of 1,680 seeds per lb)	<i>Pythium</i> damping-off
Corn, pop	0.75 fl oz To deliver 0.0230 mg ai per seed, apply 0.245 fl oz of product per 100,000 seeds (Based on average of 3,060 seeds per lb)	<i>Pythium</i> damping-off
Cereal Grains: Wheat, barley, oats, rye and triticale	0.75 fl oz For wheat, barley, oats: To deliver 0.0054 mg ai per seed, apply 0.058 fl oz of product per 100,000 seeds (Based on average of 13,000 seeds per lb) For rye / triticale: To deliver 0.0037 mg ai per seed, apply 0.040 fl oz of product per 100,000 seeds (Based on average of 18,850 seeds per lb)	<i>Pythium</i> damping-off
Millet	0.75 fl oz To deliver 0.0009 mg ai per seed, apply 0.009 fl oz of product per 100,000 seeds (Based on average of 80,000 seeds per lb)	<i>Pythium</i> damping-off
Buckwheat	0.75 fl oz To deliver 0.0054 mg ai per seed, apply 0.058 fl oz of product per 100,000 seeds (Based on average of 13,000 seeds per lb)	<i>Pythium</i> damping-off

Crop	Application Rate Per 100 lb of seed	Diseases Controlled
Cucumber	0.75 fl. oz.	<i>Pythium</i> damping-off
Spinach <sup>1</sup>	0.1 to 0.75 fl oz	<i>Pythium</i> damping-off
<sup>1</sup> Do not apply to spinach seed to be grown in greenhouses. Containers or bags containing <b>BELMONT 2.7 FS</b> –treated spinach seed must be labeled with this restriction.		
Forage Legumes: Alfalfa, clover, lespedeza, beans (for forage), soybeans (for forage), soybean hay, peanuts (for forage), peanut hay, peas (for forage), pea vine hay, cowpeas (for forage), cowpea hay, trefoil, vetch and velvet beans (for forage).	0.75 to 1.5 fl oz	<i>Pythium</i> damping-off and early season <i>Phytophthora</i>
Root and Tuber Vegetables*: Beets (garden and sugar), carrot *Not registered for use in California	0.75 fl oz	<i>Pythium</i> damping-off
Turf Grasses: On golf courses, home lawns, reclamation and erosion control	1.5 fl oz	<i>Pythium</i> damping-off
Forage Grasses	0.75 fl oz	<i>Pythium</i> damping-off

#### SEED TREATMENT DIRECTIONS:

##### USE AT REDUCED RATES IN COMBINATION WITH OTHER FUNGICIDES

**BELMONT 2.7 FS** systemic fungicide seed dressing may be applied at the reduced rates shown in the table below and still provide good *Pythium* control when used in combination with broad spectrum seed treatment fungicides. Apply as a commercial seed treatment only in combination at EPA registered rates of broad-spectrum seed treatment fungicides for which compatibility and crop safety have been verified. Do not mix with any pesticide that has a prohibition against tank-mixing. **BELMONT 2.7 FS** may be applied on its own or as a water-based slurry through standard slurry or mist-type commercial seed treatment equipment.

Crop	Application Rate Per 100 lb of seed	Diseases Controlled
Cereal Grains Wheat, barley, oats, rye	0.10 to 0.375 fl oz For wheat, barley, oats: To deliver 0.0007 to 0.0027 mg ai per seed, apply 0.008 to 0.029 fl oz of product per 100,000 seeds (Based on average of 13,000 seeds per lb) For rye: To deliver 0.0005 to 0.0019 mg ai per seed, apply 0.005 to 0.020 fl oz of product per 100,000 seeds (Based on average of 18,850 seeds per lb)	Seed decay and damping-off caused by <i>Pythium</i>
Corn, field	0.10 to 0.375 fl oz To deliver 0.0056 to 0.0209 mg ai per seed, apply 0.060 to 0.223 fl oz of product per 100,000 seeds (Based on average of 1,680 seeds per lb.)	Seed decay and damping-off caused by <i>Pythium</i>
Peanuts* *Not registered for use in California	0.20 to 0.375 fl oz To deliver 0.0268 - 0.0502 mg ai per seed, apply 0.286 - 0.536 fl oz of product per 100,000 seeds (Based on average of 700 seeds per lb)	Seed decay and damping-off caused by <i>Pythium</i>
Rice* *Not registered for use in California	0.10 to 0.375 fl oz To deliver 0.0005 - 0.0019 mg ai per seed, apply 0.005 - 0.020 fl oz of product per 100,000 seeds (Based on average of 18,800 seeds per lb)	Seed decay and damping-off caused by <i>Pythium</i>
Soybeans	0.20 to 0.375 fl oz To deliver 0.0067 - 0.0126 mg ai per seed, apply 0.10 - 0.19 fl oz of product per 140,000 seeds (Based on average of 2,800 seeds per lb)	<i>Pythium</i> damping-off and early season <i>Phytophthora</i>
Peas	0.20 to 0.375 fl oz To deliver 0.0059 - 0.0110 mg ai per seed, apply 0.063 - 0.117 fl oz of product per 100,000 seeds (Based on average of 3,200 seeds per lb)	<i>Pythium</i> seed rot and damping-off
Beans (Field, kidney, navy, lentils)	0.20 to 0.375 fl oz To deliver 0.0117 - 0.0220 mg ai per seed, apply 0.125 - 0.234 fl oz of product per 100,000 seeds (Based on average of 1,600 seeds per lb)	<i>Pythium</i> seed rot and damping-off
Sunflowers	0.10 to 0.375 fl oz To deliver 0.0017 - 0.0064 mg ai per seed, apply 0.018 - 0.068 fl oz of product per 100,000 seeds (Based on average of 5,500 seeds per lb)	<i>Pythium</i> seed rot and damping-off

#### SEED TREATMENT DIRECTIONS - FOR EXPORT USE ONLY:

For treatment of the following seed for export only to countries requiring treatment with metalaxyl before importation. The treater is responsible for confirming the acceptability of his treated seed in the country to which he is exporting.

Crop	Application Rate Per 100 lb of seed	Diseases Controlled
Brassica (Cole) Leafy Vegetables	0.75 - 1.5 fl oz	<i>Pythium</i> damping-off
Corn	0.75 - 1.5 fl oz	<i>Pythium</i> damping-off
	3.0 fl oz	Systemic downy mildew and <i>Pythium</i> damping-off
Cucurbit Vegetables	0.75 fl oz	<i>Pythium</i> damping-off
Fruiting Vegetables	0.75 - 1.5 fl oz	<i>Pythium</i> damping-off
Leafy Vegetables	0.75 - 1.5 fl oz	<i>Pythium</i> damping-off
Millet	0.75 - 1.5 fl oz	<i>Pythium</i> damping-off
	2.5 fl oz	Systemic downy mildew and <i>Pythium</i> damping-off
Onions	0.75 - 1.5 fl oz	<i>Pythium</i> damping-off
Peas	3.5 fl oz	<i>Pythium</i> damping-off and early season <i>Phytophthora</i>
Root and Tuber Vegetables	0.75 - 1.5 fl oz	<i>Pythium</i> damping-off
Sorghum	0.75 - 1.5 fl oz	<i>Pythium</i> damping-off
	5.25 fl oz	Systemic downy mildew and <i>Pythium</i> damping-off
Sunflowers	9.0 fl oz	Systemic downy mildew

## TREATED SEED LABELING:

Seed treated in accordance with the Export Use pattern must be labeled as follows:

"FOR EXPORT ONLY – NOT FOR DOMESTIC SALES OR USE".

# STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE:** Store in a cool dry location. Do not store in direct hot sunlight. Do not store above 90°F for prolonged periods of time. After prolonged storage in intense cold, allow product to return to approximately 75°F before using.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER HANDLING:** Non-refillable container

Plastic Containers: Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Then offer container for recycling, reconditioning, or puncture and dispose of in a sanitary landfill, by incineration, or if allowed by State and local authorities, by burning. If burned, stay out of smoke.

**Triple rinse as follows:** *For containers with capacity equal to or less than 5 gallons or 50 pounds:* Empty the remaining contents into application equipment or a mix-tank and drain for 10 seconds after the flow begins to drip. Add water - at least 2% of the container volume, and (if the treating mixture composition permits it) up to 1/4 of the container volume - and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix-tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. If used in application equipment, adjust the slurry volume application rate to account for any added rinsate water.

**Recycling:** Once cleaned, some agricultural plastic pesticide containers can be taken to a container collection site or picked up for recycling. To find the nearest site, contact your chemical dealer or manufacturer, or contact the Ag Container Recycling Council (ACRC) at 1-877-952-2272 (toll free) or [www.acrecycle.org](http://www.acrecycle.org).

**To clean the container before final disposal,** empty the remaining contents into application equipment or mix-tank. Add water - at least 2% of the container volume, and (if the treating mixture composition permits it) up to 1/4 of the container volume. Replace and tighten closure. Agitate vigorously or recirculate the rinsate with a pump for at least 2 minutes, ensuring that the rinsate rinses the walls of the container. Empty the rinsate into application equipment or rinsate collection system, for later use or disposal. Repeat this procedure two more times. If used in application equipment, adjust the slurry volume application rate to account for any added rinsate water.

## Warranty and Disclaimer Statement

The directions for use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product. Such risks may arise from weather conditions, soil factors, off-target movement, unconventional farming techniques, the presence of other materials, the manner of use or application, or other unknown factors, all of which are beyond the control of Arysta LifeScience North America, LLC ("Arysta"), and can cause crop injury, injury to non-target crops or plants, ineffectiveness of the product, or other unintended consequences. All such risks shall be assumed by the user or buyer.

Arysta warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, subject to the inherent risks described above, when used in accordance with the Directions for Use under normal conditions. This warranty does not extend to the use of this product contrary to label instructions or under conditions not reasonably foreseeable to Arysta, and is subject to the inherent risks described above.

**TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, ARYSTA DISCLAIMS ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, ARYSTA, MANUFACTURER, AND SELLER DISCLAIM AND SHALL NOT BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT, OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE, HANDLING, APPLICATION, STORAGE, OR DISPOSAL OF THIS PRODUCT OR FOR DAMAGES IN THE NATURE OF PENALTIES, AND THE USER AND BUYER WAIVE ANY RIGHT THAT THEY MAY HAVE TO SUCH DAMAGES. NO AGENT, REPRESENTATIVE OR EMPLOYEE OF ARYSTA IS AUTHORIZED TO MAKE ANY WARRANTY, GUARANTEE OR REPRESENTATION BEYOND THOSE CONTAINED HEREIN OR TO MODIFY THE WARRANTIES CONTAINED HEREIN.**

**TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE TOTAL LIABILITY OF ARYSTA, MANUFACTURER, AND SELLER, SHALL BE LIMITED TO THE PURCHASE PRICE PAID, OR AT ARYSTA'S ELECTION, THE REPLACEMENT OF THE PRODUCT.**

## IMPORTANT: READ BEFORE USE

Treatment of highly mechanically damaged seed, or seed known to be of low vigor and poor quality, except for the purpose of curative control of existing disease pests, may result in reduced germination and/or reduction of seed and seedling vigor. Treat and conduct germination tests on a small test sample of seed before treating commercial quantities with a selected chemical treatment. Due to seed quality and seed storage conditions beyond control of Arysta, Arysta makes no claims or guarantees as to germination of carry-over seed.

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**WARNING:** Causes skin irritation. Harmful if swallowed. Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes. Do not get on skin or on clothing.

### PERSONAL PROTECTIVE EQUIPMENT (PPE):

Some materials that are chemical-resistant to this product are listed below.

### Applicators and other handlers must wear:

- Coveralls over short-sleeved shirt and short pants;
- Socks and chemical-resistant footwear;
- Chemical-resistant gloves (barrier laminate, butyl rubber  $\geq$  14 mils, nitrile rubber  $\geq$  14 mils, neoprene rubber  $\geq$  14 mils, natural rubber  $>$  14 mils, polyethylene, polyvinyl chloride (PVC)  $\geq$  14 mils, and/or viton  $\geq$  14 mils ).
- When mixing and loading, and when cleaning equipment, wear a chemical-resistant apron.

NOTE: Persons involved in bagging treated seed, sewing or moving bags of treated seed, or cleaning up bagging areas or seed treatment equipment are pesticide handlers and must wear the PPE required on this label for pesticide handlers.

User Safety Requirements:

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

### USER SAFETY RECOMMENDATIONS

Users should:

- Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and change into clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing them. As soon as possible, wash thoroughly and change clothing.

### ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from treated areas. Do not contaminate water when disposing of equipment washwater or rinsate.

Groundwater Advisory: Metalaxyl is known to leach through soil into groundwater under certain conditions as a result of agricultural use. Use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.
