

FIFRA Section 24(c) Special Local Need Label

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF NEW YORK **(EXCEPT NASSAU AND SUFFOLK COUNTIES)**

For Control/Suppression of Roughstalk Bluegrass and Cheat in Fall-sown or Winter Wheat

OSPREY® Herbicide

EPA Reg. No. 264-802

SLN. No. NY-130002

THIS LABEL IS VALID UNTIL DECEMBER 31, 2028 UNLESS OTHERWISE AMENDED, WITHDRAWN, CANCELED, OR SUSPENDED.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This label must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

WEED APPLICATION TIMING

OSPREY™ Herbicide is a postemergent herbicide with best results being obtained when applications are made to young actively growing weeds. For control or suppression of labeled grasses, the weed application timing is from 1-leaf to the 2-tiller stage of growth. See weed tables on the EPA registered label for appropriate application timing and weed size. Treat heavy weed infestations before they become competitive with the crop.

WHEAT APPLICATION TIMING

Apply OSPREY Herbicide to fall-sown or winter wheat from emergence up to the jointing stage of wheat.

SPRAY ADDITIVES

OSPREY™ Herbicide is a water dispersible granule that does not include an adjuvant. A recommended adjuvant **must** be tank mixed with OSPREY™ Herbicide as described in the "Spray Additives" and Mixing Order" sections of the EPA registered label.

APPLICATION METHODS

Ground Application

OSPREY™ Herbicide can be applied broadcast in 10 or more gallons of water per acre. For weed control in dense weed canopies, use 15 or more gallons of water per acre. Weed infestations should be treated before they become competitive with the crop.

OSPREY™ HERBICIDE ON FALL-SOWN OR WINTER WHEAT

WEED CONTROLLED	RATE	WEED APPLICATION TIMING
Bluegrass, roughstalk (<i>Poa trivialis</i>)	4.75 ounces/acre	1-leaf to 2-tiller
WEED SUPPRESSED	RATE	WEED APPLICATION TIMING
Cheat (<i>Bromus secalinus</i>)	4.75 ounces/acre	1-leaf to 2-tiller

RESTRICTIONS/PRECAUTIONS FOR USE

- No aerial applications allowed in New York State.
- Distribution, Use, and Sale of Osprey Herbicide is prohibited in Nassau and Suffolk Counties of New York.
- For use under this SLN label do not apply this product through any type of irrigation system.
- Do not apply under circumstances where possible drift to unprotected persons or to food, forage, or other plantings that might be damaged or crops thereof rendered unfit for sale, use or consumption can occur.
- Do not apply when wind causes drift to off-site vegetation as injury may occur. Small amounts of OSPREY Herbicide via drift or tank contamination can cause severe damage to crops other than wheat. Careful management of spray drift and tank cleanout is required.
- All ground application equipment must be properly maintained and calibrated using appropriate carriers.
- Do not apply within 30 days of harvesting wheat forage, and 60 days for hay, grain, and straw.
- Do not make more than one application of OSPREY® Herbicide in one fall sown or winter wheat growing season.
- Do not apply more than 4.75 oz/acre of OSPREY® Herbicide in one fall-sown or winter wheat growing season.
- Do not apply more than 0.053 pounds of mefenpyr-diethyl per acre per year.
- Applications of ammonium nitrogen fertilizer independent of those made with herbicides are commonly known as topdress applications. Topdress applications of ammonium nitrogen have been shown on occasion to result in transient leaf burn or stunting when applied within 14 days of an OSPREY application.
- Do not apply OSPREY Herbicide in tank mixture with malathion, mancozeb, Di-Syston or methyl parathion as unacceptable crop phytotoxicity may occur.

For MEDICAL And TRANSPORTATION Emergencies ONLY Call 24 Hours A Day 1-800-334-7577

For PRODUCT USE Information Call 1-866-99BAYER (1-866-992-2937)

As with any crop-protection product, always read and follow label directions.

For additional information call toll-free 1-866-99BAYER (1-866-992-2937).
