

**NOT FOR USE IN THE STATE OF TEXAS**

**EPA Reg. No. 91234-96**

**FIFRA Section 2(ee) Recommendation**

This recommendation is made as permitted by Section 2(ee) of FIFRA and has not been submitted to or approved by the U.S. Environmental Protection Agency.

**FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE(S) OF  
MT and WY**

**For Control of labeled pests on Potatoes**

**DIRECTIONS FOR USE**

- It is a violation of Federal law to use this product inconsistent with its labeling.
- This product bulletin must be in the possession of the user at the time of pesticide application.
- Read the "Limitation of Warranty and Liability" in the label booklet for **Seville™** before using.
- Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

**For Potatoes (and other Tuberous Root and Corm Vegetables):**

| Crop  | Pests <sup>1</sup>  | Rate Per Acre<br>Per Application                        | Instructions   |

| <b>Potatoes (and other<br/>Tuberous Root and<br/>Corm Vegetables)</b><br>Arracacha<br>Arrowroot<br>Bean yam<br>Cassava:<br>bitter and sweet<br>Chayote root<br>Chinese artichoke<br>Chufa<br>Dasheen (taro)<br>Edible canna<br>Ginger<br>Jerusalem artichoke<br>Leren<br>Potato<br>Sweet potato<br>Tanier<br>True yam<br>Turmeric | Buckthorn aphid<br>Green peach aphid<br>Melon aphid<br>Potato aphid | <b>Foliar<br/>application:</b><br><br>2.75 – 3.25 oz./A | Apply when aphids & potato psyllids first appear, before populations build to damaging levels.<br><br>Two applications may be needed to control persistent aphid & potato psyllid populations. |
|   | Potato psyllid <sup>2</sup>   | 3.25 oz./A  |  |

Thorough spray coverage of plant foliage is essential for optimum control. Apply in sufficient water to ensure good coverage; use a minimum of 5 gals./A when applied by air and a minimum of 10 gals./A when applied by ground. To provide optimum coverage and penetration, add a penetrating type spray adjuvant at the manufacturer's specified rate.

**Restrictions:**

- **Do not** apply more than 3.25 oz./A per application.
- **Do not** exceed a total of 11.0 oz./A per crop per season.

Allow a minimum of 7 days between applications.

Allow a minimum of 14 days (PHI) between the last application and harvest.

<sup>1</sup>Aphid pests listed in the individual crop sections are the species that most commonly infest that crop.

However, **Seville™** will control all aphid species listed in the Product Information section of the federal label.

<sup>2</sup>Suppression only.

Use information in accordance with Section 2(ee) of FIFRA.

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read and follow all applicable directions for use, restrictions, worker protection standard requirements, and precautions on the EPA registered main label attached to the container of **Seville™ (EPA Reg. No. 91234-96)**.
