

PRODUCT BULLETIN

QUINSTAR 4L

EPA Reg. No. 42750-169

For Use Only in the State of Michigan

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
This labeling must be in the possession of the user at the time of pesticide application.

ASPARAGUS

Weeds Controlled:

Field bindweed, hedge bindweed

Dosage and Frequency/Timing of Applications:

Make one broadcast, soil application applying up to 12.6 fluid ounces per acre (0.375 lb ai/A) of QUINCLORAC 4L AG after the last harvest of the season and prior to the first frost. A crop oil concentrate at a rate of 2 pints per acre may be included in the spray mixture.

Dilution Rate:

Use a minimum of 10 gallons of water per acre by ground application only.

Tank Mixes:

Other registered products may be tank mixed with QUINCLORAC 4L AG. Read and follow the applicable Restrictions and Limitations and Directions For Use on products involved in tank mixing. The most restrictive labeling applies to tank mixes.

RESTRICTIONS AND LIMITATIONS – ASPARAGUS

- Maximum seasonal use rate: Do not apply more than a total of 12.6 fluid ounces (0.375 lbs of a.i.) of QUINCLORAC 4L AG herbicide per acre, per calendar year.
- Do not make more than 1 application per year.
- Crop Rotation Restrictions:
- In case of crop failure, do not plant any other crop other than Spring or Winter wheat or grain sorghum for 309 days (10 months) following application. For alfalfa, clover, dry beans, flax, peas, lentils, safflower, Solanaceous family (and other sensitive species listed in PRODUCT INFORMATION section) crops and sugarbeets, do not replant for 24 months and conduct a bioassay prior to planting any of these crops.
- Do not apply to crops subjected to stress conditions such as hail damage, flooding, drought, injury from other herbicides, or widely fluctuating temperatures, as crop injury may result.
- Do not use selective application equipment such as recirculating sprayers, wiper applicators, or shielded applicators.
- Do not apply by ground when wind speed is greater than 10 mph.
- Do not apply by air.
- Do not allow livestock to graze in treated areas.
- Do not apply to irrigation ditches or areas that act as a channel for water entering cropland.

Note: All applicable directions, restrictions, and precautions on the QUINSTAR 4L package label are to be followed. This labeling contains supplemental instructions and restrictions for use of this product which may not appear on the package label. Read and follow all precautionary statements and all other information appearing on the product label.
