

Restricted Use Pesticide due to skin effects. For retail sale to and use by Certified Applicators, or persons under their direct supervision, and only for those uses covered by the Certified Applicator's certification.

**GROUP 12C ACARICIDE**

# Omite®-6E

**Agricultural Miticide**

**EPA REG. NO. 400-89**

**FIFRA 2(ee) RECOMMENDATION FOR USE WITHIN THE STATES OF IDAHO, OREGON and WASHINGTON.**

Use of Omite-6E for controlling two-spotted spider mites in basal or sucker treatments in herbicide tank mixes.

CROP	MITES CONTROLLED	APPLIC. RATE (fl. oz. per acre)	APPLICATION INFORMATION
<b>HOPS</b> (for basal treatment only in conjunction with sucker sprays)	Two-spotted spider	32	For basal treatment only to control early/beginning mite populations before they move up the vine or into the canopy. DO NOT APPLY OTHER THAN BASAL OR SUCKER TREATMENTS. SEE COMPATIBILITIES SECTION of the EPA registered label.
	<b>Ground Application:</b> Apply at gallonage labeled for the herbicide tank mix partner, in sufficient volume of water to assure thorough coverage of the basal area of the vine.		
	<b>HOPS RESTRICTIONS:</b> Do not feed hop refuse or cones to livestock. However, spent hops from the extract operation may be fed. Do not make more than 2 applications per season; the minimal spray interval is 21 days. The Restricted Entry Interval (REI) is 21 days. See AGRICULTURAL USE REQUIREMENTS of the EPA registered label for general REI exemptions. There is no exception allowed for hand weeding or thinning. <b>Pre-harvest Interval:</b> Do not harvest within 14 days of the last application.		

**Read and follow all applicable directions, restrictions, and precautions on the EPA registered label.**

This recommendation must be in the possession of the user at the time of pesticide application.
