

FIFRA 2(EE) Recommendation

EPA REG. NO.: 279-3588

FOR DISTRIBUTION AND USE ONLY IN THE STATE OF CALIFORNIA

THIS RECOMMENDATION, WHICH CONTAINS ADDITIONAL DIRECTIONS FOR USE, IS MADE AS PERMITTED UNDER FIFRA SECTION 2(EE) AND HAS NOT BEEN SUBMITTED TO OR APPROVED BY THE US EPA.

This recommendation for Rhyme [™] Fungicide is valid until December 31, 2030, or until withdrawn, canceled or suspended.

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING. ALL APPLICABLE DIRECTIONS, RESTRICTIONS AND PRECAUTIONS ON THE EPA REGISTERED LABEL MUST BE FOLLOWED.

THESE USE DIRECTIONS MUST BE IN THE POSSESSION OF THE USER AT THE TIME OF PESTICIDE APPLICATION.

FOR MANAGEMENT OF GRAPE TRUNK DISEASE COMPLEX ON GRAPES, TRUNK DISEASE COMPLEX ON TREE NUTS, AND HULL ROT IN ALMOND

DIRECTIONS FOR USE For management of wood diseases on grapes and tree nuts, apply Rhyme fungicide as directed through pressurized irrigation methods such as macro-sprinkler, micro-sprinkler, or drip systems. For best results, use Rhyme fungicide as part of a long-term management program.

Crop	Disease	Rate (fl. oz./A)	Application directions	PHI (Days)
Grapes	Vinewood Disease Botryosphaeria dothidea Eutypa lata Phomopsis canker Phaeoacremonium parasiticum Neofusicoccum parvum Meofusicoccum mediterraneum	5.0	New Vineyards (1-3 years old) Make initial application at the beginning of Spring Root Flush. Make second application post- harvest during Fall Root Flush. All applications must be made through a pressurized irrigation system. To achieve maximum performance, use a minimum of 10 fl. oz./A for the year. Established Vineyards (>3 years old) Make initial application at the beginning of Spring Root Flush. Make second application 14 days later. Make third application at the start of Veraison. Make fourth application post-harvest during Fall Root Flush. All applications must be made through a pressurized irrigation system. To achieve maximum performance, use a minimum of 20 fl. oz./A for the year.	14

Crop	Disease	Rate (fl. oz./A)	Application directions	PHI (Days)
Tree Nuts (African Tree Nut, Almond, Brazil Nut, Burr Oak, Butternut, Cajou, Cashew, Castanha-Do- Maranhao, Coconut, Coquito Nut, Dika Nut, Guiana Chestnut, Hazelnut, Heartnut, Hickory Nut, Japanese Horse- Chestnut, Macadamia Nut, Monogongo Nut, Monkey-Pot, Pachira Nut, Pecan, Sapucaia Nut, and Walnut)	Trunk diseases Botryosphaeria dothidea Cytospora sorbicola Eutypa lata Ceratocystis destructans, Neofusicoccum parvum Neofusicoccum mediterraneum Calosphaeria pulchella, Phomopsis canker Ganoderma	7.0	Make initial application of 7 fl. oz./A at the beginning of Spring Root Flush. Reapply at 30-day intervals as needed. Make final application at Fall Root Flush (after harvest). Apply through a pressurized irrigation system. To achieve maximum performance, make 3-4 applications at 7 fl. oz./A for the year.	14
Almond	 Hull Rot Monilinia fructicola Aspergillus niger SUPPRESSION: Rhizopus stolonifera 	7.0	Apply as a foliar spray in sufficient water to obtain thorough coverage of foliage and/or fruit. Foliar application can be as early as 3-4 weeks before hull split. For best results and under high disease pressure apply early hull split and again 14-days later. Refer to university and/or extension guidelines for best application timings and IPM.	14

RESTRICTIONS:

Grapes

- No single application may exceed 5 fl. oz. of product/A.
- Do not apply more than 6 applications per year.
- Do not apply more than 30 fl. oz. of product/A per year.
- Do not apply more than 0.488 lb. ai flutriafol/A per year.
- Restricted Entry Interval (REI) is 5 days for girdling or turning of grapes. For all other activities the REI is 12 hours.
- Preharvest Interval (PHI) Do not apply within 14 days of harvest.

Tree Nuts

- No single application may exceed 7 fl. oz. of product/A.
- Do not apply more than 4 applications per year.
- Do not apply more than 28 fl. oz. of product/A per year.
- Do not apply more than 0.455 lb. ai flutriafol/A per year.
- Restricted Entry Interval (REI) is 12 hours.
- Preharvest Interval (PHI) Do not apply within 14 days of harvest.
