

Date of Compilation: March 23, 2015

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product name: Crymax

**Product Type:** Water dispersible granule

**EPA Registration No.** 70051-86

Active Ingredient: Bacillus thuringiensis subspecies kurstaki strain EG7841

**CAS No.:** 68038-71-1

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses: Bio-insecticide

**Uses advised against:** Any uses not listed on the label

1.3. Details of the supplier of the safety data sheet

Name: Certis U.S.A., LLC

Address: 9145 Guilford Road, Suite 175

Columbia, Maryland 21046

U.S.A.

**Phone Number:** +01 (800) 255-3924

Website: http://www.certisusa.com

1.4. Emergency telephone number

**Emergency number:** +1 800 255-3924

**SECTION 2: Hazards identification** 

2.1. Classification of the substance or mixture

Hazard Classification: Not classified by OSHA

**EPA Signal Word:** Caution (refer to Section 15)

Hazard Statements: None

Pictogram: None

Precautionary Statements: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash

thoroughly with soap and water after handling

**2.2 Other Hazards:**Do not apply directly to areas where surface water is present, or to intertidal

areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. This product must not be applied aerially within ¼ mile of any habitats of endangered or threatened Lepidoptera. No manual application can be made within 300 ft of any

habitats of endangered or threatened Lepidoptera.

Date of Compilation: March 23, 2015

# **SECTION 3: Composition/information on ingredients**

Ingredient Cas# % w:w

B.thuringensis var. kurstaki 68038-71-1 40

Strain (EG7841)

## **SECTION 4: First aid measures**

## 4.1. Description of first aid measures

**Generic measures** 

**Eye Contact:** Hold eye open and rinse slowly and gently for 15-20 minutes. Remove contact

lens after 5 minutes then continue rinsing eye. Call doctor or poison control center

for further treatment advice.

## 4.2. Most important symptoms and effects, both acute and delayed

May cause eye irritation.

# 4.3. Indication of any immediate medical attention and special treatment needed

No information available.

# **SECTION 5: Firefighting measures**

## 5.1. Extinguishing media

Suitable Extinguishing Media: All methods

**Unsuitable Extinguishing Media:** None known.

## 5.2. Special hazards arising from the substance or mixture

Hazardous combustion products: None known

5.3. Advice for firefighters;

Protection of Firefighters: None specified

### **SECTION 6: Accidental release measures**

# 6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel: Avoid generation of dusts. Do not inhale dusts. Avoid substance

contact. Ensure adequate ventilation. Evacuate the danger area

and observe emergency procedures.

For emergency responders: Use personal protection recommended in Section 8. Isolate the hazard

area and deny entry to unnecessary and unprotected personnel.

# 6.2. Environmental precautions

Date of Compilation: March 23, 2015

Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash water. This product is not to be applied aerially within ¼ mile of any habitats of endangered or threatened Lepidoptera. No manual application may be made within 300 feet of any threatened or endangered Lepidoptera. Keep out of drains, sewers, ditches, and waterways

# 6.3. Methods and material for containment and cleaning up

Methods for Containment: Contain spill. Reclaim material if possible. Use absorbent material to

minimize runoff of mixed product.

Methods for Clean-Up: Collect mechanically. Sweep, vacuum, or shovel material into a

container for disposal. Avoid generation of dusts. Clean up affected area with plenty of water. Flush the area with water to remove any residue. Do

not allow wash water to contaminate water supplies.

Other Information: Dispose of in accordance with Federal State and local regulations for

disposal of non-hazardous waste.

## 6.4. Reference to other sections

See Section 8 for occupational exposure limits and risk management measures. Refer to Section 13 for disposal considerations.

# **SECTION 7: Handling and storage**

## 7.1. Precautions for safe handling

Avoid breathing dust. Avoid contact with skin and eyes. Avoid contact with open wounds. Wash hands thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. See Section 8 for appropriate personal protective equipment. Keep away from excessive heat and open flames.

#### 7.2. Conditions for safe storage, including any incompatibilities

Store in a cool dry place that is inaccessible to children.

# 7.3. Specific end use(s)

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

OSHA Permissible Exposure Limits (PELs): Not determined

ACGIH Threshold Limit Values: Not determined

Other Exposure Limits: Not determined

#### 8.2. Exposure controls

Date of Compilation: March 23, 2015

**Engineering Controls:** Ensure ventilation is adequate to keep airborne dust levels low.

**Personal Protective Equipment** 

Eye/Face Protection: None specified

**Skin Protection** Wear long sleeved shirt, long pants, shoes and socks

Hand Protection: Water proof gloves

**Body Protection:** Wear long sleeved shirt, long pants, shoes and socks

**Respiratory Protection:** Mixer loaders and applicators must wear a dust/mist filtering

respirator meeting NIOSH standards of at least N-95, R-95 or P-95. Repeated exposure to high concentrates of microbial proteins

can cause allergic sensitization.

Thermal Hazards: None

**General Hygiene Considerations:** Wash hands before eating, drinking, chewing gum, using tobacco,

or using the toilet.

Remove clothing /PPE immediately if pesticide gets inside. Then

wash thoroughly and put on clean clothes.

Remove PPE immediately after handling this product. Wash the outside of the gloves before removing. As a soon as possible

change into clean clothing.

Wash PPE thoroughly according to manufacturer's instructions before reuse. Contaminated clothing should be washed

separately before reuse.

**Environmental exposure controls:** 

Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash water. This product is not to be applied aerially within ¼ mile of any habitats of endangered or threatened Lepidoptera. No manual application may be made within 300 feet of any threatened or endangered Lepidoptera. Keep out of drains,

sewers, ditches, and waterways

## **SECTION 9: Physical and chemical properties**

# 9.1. Information on basic physical and chemical properties

**Appearance:** Brown granules (solid).

Odour: Earthy

Odour Threshold: Not established pH: 7.4-7.5, 1% dilution

**Melting Point / Freezing** 

Point:

Not applicable

Initial Boiling Point:

Boiling Range:

Not applicable

Not applicable

Not applicable

Unknown

Flammability (solid, gas): Not determined

Date of Compilation: March 23, 2015

**Lower & Upper Flammability** 

Limits:

Not determined

Vapour Pressure: Not applicable Vapour Density: Not applicable

**Density:** 0.523-0.578 g/cc or 31.5-28.5 lb./ft<sup>3</sup>

Solubility: Not determined Partition Coefficient Not determined

(n-octanol/water):

Auto-ignition Temperature: Not determined

Decomposition Temperature: Not determined

Viscosity: Not applicable

Other relevant properties: None known

## 9.2. Other information

Not available.

# **SECTION 10: Stability and reactivity**

**10.1. Reactivity** No known hazardous reactions when handled and stored

according to stated provisions.

**10.2. Chemical stability** Stable when handled and stored according to stated

provisions.

**10.3. Possibility of hazardous reactions**No known hazardous reactions

10.4. Conditions to avoid Avoid exposure to moisture. Exposure to excessive

heat or open flame.

**10.5.** Incompatible materials No known incompatible materials.

**10.6. Hazardous decomposition products** No known hazardous decomposition products.

## **SECTION 11: Toxicological information**

## 11.1. Information on toxicological effects

## **Acute Toxicity**

Toxicological information on the substance or mixture:

**LD**<sub>50</sub> (oral) LD<sub>50</sub> > 5050 mg/kg, rat LD<sub>50</sub> > 5050 mg/kg, rat

LC<sub>50</sub> (inhalation) No evidence of toxicity or pathogenicity in study conducted with the

**Technical Product** 

Skin corrosion /

irritation:

Slightly irritating, Toxicity Category IV, rabbit

Date of Compilation: March 23, 2015

**Eye irritation:** Irritating to the eyes, rabbit

Respiratory or skin

sensitization:

No data available.

### Other information on adverse health effects:

## Carcinogenicity

NTP Listed: Not applicable
IARC Listed: Not applicable
OSHA: Not applicable

## 11.2 Reference to other sections

See Section 4 for symptoms and acute and delayed effects.

# **SECTION 12: Ecological information**

## 12.1. Toxicity

Test species	Test method	Test substance	LC <sub>50</sub>
Northern Bobwhite	35 day, pathogenicity	Btk strain EG 7841	No pathogenicity or infectivity observed at mean dosage of 1.32 x 10 <sup>9</sup> CFU
Oncorhynchus mykiss	30 day, static renewal	Btk strain EG 7841	LC <sub>50</sub> > 7.8 x 10 <sup>9</sup> CFU/L
Daphnia magna	21 day, static renewal	Btk strain EG 7841	EC <sub>50</sub> > 5.0 x 10 <sup>8</sup> CFU/L
Apis mellifera L	6 days	Btk strain EG 7841	Dietary LC <sub>50</sub> : 1322 ppm

**12.2. Persistence and degradability**Bacillus thuringiensis subspecies kurstaki (Btk) shows

a rapid loss of activity in response to UV light

12.3. Bioaccumulative potential Btk is not pathogenic and does not reproduce in living

organisms other than target Lepidopteran larvae.

12.4. Mobility in soil Low based on scientific data for Btk

**12.5. Other adverse effects** No data available.

# **SECTION 13: Disposal considerations**

## 13.1. Waste treatment methods

Disposal Instructions: Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Store in a cool, dry place inaccessible to children.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of onsite or at an

approved waste disposal facility.

Date of Compilation: March 23, 2015

Container Handling: Non-refillable container. Do not reuse or refill this container. Completely empty

bag into application equipment. Then offer for recycling if available or dispose of empty bag in a sanitary landfill, or by incineration, or if allowed by state and local

authorities, by burning. If burned, stay out of smoke.

## **SECTION 14: Transportation information**

14.1. UN number 14.2. UN proper shipping name

Not regulated. Not regulated.

14.3. Transport hazard class(es) 14.4. Packing group

Not regulated. Not regulated.

14.5. Environmental hazards 14.6. Special precautions for user

Not regulated. Not regulated.

14.7. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code

Not regulated.

## **SECTION 15: Regulatory information**

# 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EPA: This product is a pesticide product registered by the United States Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticidal chemicals. The hazard information required on the pesticide label is reproduced below. The pesticide label also includes other important information, including directions for use.

CAUTION, KEEP OUT OF REACH OF CHILDREN

Causes moderate eye irritation.

Repeated exposure to high concentrations of microbial proteins can cause allergic sensitization.
