6. ACCIDENTAL RELEASE MEASURES

Personal Precautions: Isolate area and keep unnecessary and unprotected personnel from entering. Wear suitable personal protective clothing and equipment as described in Section 8 of this document.

Environmental Precautions: Prevent material from entering public sewer systems or any waterways. Do not flush to drain. Large spills to soil or similar surfaces may necessitate removal of topsoil. The affected area should be removed and placed in an appropriate container for disposal.

Spill Cleanup: Dike spill using suitable absorbent or impervious materials such as sand or clay. Collect and contain contaminated absorbent and place in an appropriate container for disposal. Pump any free liquid into an appropriate closed container and decontaminate tools and equipment following cleanup. Collect washings for disposal.

11. TOXICOLOGICAL INFORMATION

Information presented below is from testing done on an identical or substantially similar product:

ORAL TOXICITY (rat LD_{50}): >2,000 mg/kg DERMAL TOXICITY (rat LD_{50}): >4,000 mg/kg

INHALATION TOXICITY (rat LC₅₀): >3.0 mg/L (liquid aerosol

4-hours). Highest attainable concentration. No deaths

EYE IRRITATION: Minimally Irritating (Rabbit) **SKIN IRRITATION:** No skin irritation (Rabbit) **SKIN SENSITIZATION:** Skin sensitizing (Guinea Pig)

CARCINOGENICITY:

EPA: Not likely to be carcinogenic to humans (spirotetramet)

ACGIH: Not Listed NTP: Not Listed IARC: Not Listed OSHA: Not Listed

NEUROTOXICITY: Concern is low. The existing toxicological database indicates that spirotetramet is not a neurotoxic chemical.

REPRODUCTIVE TOXICITY: Spirotetramat caused male reproductive toxicity in the presence of general toxicity in the rat at very high experimental dose levels. There were no effects on male fertility in mice and dogs. The reproductive toxicity seen with Spirotetramat is due to an overwhelmed elimination capacity at high doses. The high dose levels needed for this effect cannot be achieved even in a worst case exposure scenario.

SPECIFIC TARGET ORGAN TOXICITY – SINGLE EXPOSURE: May cause respiratory irritation.
