# ULTRA-CHE® Corn Mix EDTA

#### **GUARANTEED ANALYSIS**

Copper (Cu)...... 0.40% 0.40% Chelated Copper (Cu) Manganese (Mn) ...... 1.50% 1.50% Chelated Manganese (Mn) Zinc (Zn) ...... 5.50% 5.50% Chelated Zinc (Zn)

Derived from Copper EDTA, Manganese EDTA and Zinc EDTA.

Store above 32°F

## **KEEP OUT OF REACH OF CHILDREN**

Causes eye and skin irritation. May cause respiratory irritation.

## PRECAUTIONARY STATEMENTS

Wash hands thoroughly after handling. Wear protective gloves. Avoid breathing mist, spray or fumes. Use only outdoors in a well-ventilated area. Store in a well-ventilated and secured place. Keep container tightly closed. It is recommended to store this product in stainless steel or polyethylene tanks with stainless steel or polyethylene fittings. Do not reuse empty container. Triple rinse, then offer for recycling or for disposal in a sanitary landfill, or by other means approved by State and local authorities. Dispose of contents/container in accordance with Federal, state and local regulations.

FOR CHEMICAL EMERGENCY: Spill, Leak, Fire, Exposure, Or Accident, Call: CHEMTREC 1-800-424-9300

## **FIRST AID**

IF IN EYES: Rinse cautiously with water for 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.

**IF INHALED:** Remove person to fresh air and keep comfortable for breathing. Call a poison control center or doctor for treatment advice if you feel unwell.

IF ON SKIN: Wash with plenty of water. If skin irritation occurs: Get medical attention. Take off contaminated clothing and wash before reuse.

In case of medical emergency, call toll free 1-877-424-7452

## **DIRECTIONS FOR USE:**

For use in a balanced fertility program for all crops requiring micronutrients. This product should be used on the basis of a soil and/or tissue analysis. For fertilizer application rates suitable for your geographical area or the maximum allowable rate per acre, consult a certified crop advisor or a trained agronomist. For specific crop recommendations in your area, consult your state's recommendations or your regional Winfield Plant Nutrition Specialist. Optimum rate of application will vary among fields, depending on soil pH, organic matter, and crop.

Distributed and Guaranteed By: Winfield Solutions LLC PO Box 64589 St. Paul, Minnesota 55164-0589

1/1010/8 Weight Per Gallon: 10.7 pounds

NET WEIGHT: 26.8 lbs. (11.0 kg.)

NET CONTENTS: 2.5 Gallons (9.464 Liters)

#### F1683

## **Mixing Instructions:**

- 1.) Put 1/3 of water or fertilizer in the tank
- 2.) Add other pesticides
- 3.) Fill tank with the balance of water or fertilizer
- 4.) Add ULTRA-CHE Corn Mix EDTA
- 5.) Agitate

CAUTION: Check compatibility with orthophosphates, high potash suspensions, and chemical mixtures prior to mixing.

## **Soil Application:**

Apply 1-4 quarts of ULTRA-CHE Corn Mix EDTA per acre.

ULTRA-CHE Corn Mix EDTA is designed and is compatible for use in all liquid suspension fertilizers. Use only at rates recommended from a soil or tissue analysis where required by law or regulation. If an analysis is not available, consult your agronomist.

## **Foliar Application:**

Apply 1-2 quarts ULTRA-CHE Corn Mix EDTA per acre with a minimum of 20 gallons of water per acre. If label instructions for foliar applications are not followed, phytotoxicity may occur. An ammonium sulfate source is recommended when tank mixing with glyphosate and some other herbicides. This product is intended to be used on corn, cotton, soybeans and sorghum. It may be applied to other crops. Some crops have shown an unpredictable sensitivity to EDTA chelates as a foliar application. If local experience is not available, a small test application is recommended.

ULTRA-CHE Corn Mix EDTA supplements soil fertilization when nutritional needs are the highest: at flowering, fruiting or under stress. It is recommended as a supplement to conventional fertility programs.

For Use in Wisconsin: Use 0.5 – 1 lb/acre of zinc chelate in a band or 1-2 lbs/acre of zinc chelate in a broadcast application.

One gallon of ULTRA-CHE Corn Mix EDTA contains 0.043 lb of actual copper, 0.16 lb of actual manganese and 0.59 lb of actual zinc.

## **APPLICATION WITH IRRIGATION WATER**

**PIVOT, SPRINKLER, OVERHEAD AND SOLID SET IRRIGATION:** Apply within 2 weeks of planting and before flowering using 1 to 4 quarts per acre or the dosage rates and timing recommended by your State Agricultural Experiment Station, Extension Specialists or Winfield Regional Plant Nutrition Specialist. This product may be mixed with most liquid fertilizers or pesticides before injection. Use a back-flow check valve to prevent material from back siphoning into water system.
