Product

Drexel KOP-5 Algaecide / Bactericide*/ Fungicide

Company

Drexel Chemical Company
Stanley Bernard
P.O. Box 13327
Memphis TN 38113 USA

Status

Allowed with Restrictions

Categories

NOP: Copper Sulfate

Date Listed

25-Nov-2025

Product code

drx-22642

Use Class

Crop Pest, Weed, and
Disease Control

Expiration

1-Dec-2026

Restrictions

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algaecide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent.

May only be used if the requirements of 205.206(e) are met, which require the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Executive Director/CEO

Product review is conducted according to the policies in the current *OMRI Policy Manual*® and based on the standards in the current *OMRI Standards Manual*®. This certificate may be out of date. Verify the current certificate online at OMRI.org, or contact OMRI for verification. OMRI listing is not equivalent to organic certification and is not a product endorsement, and cannot be construed as such. Final decisions on the acceptability of a product for use in a certified organic system are the responsibility of a USDA accredited certification agent. It is the operator's responsibility to properly use the product, including following any restrictions.
