SUBJECT: Continuing Letter of Guarantee
RE: SaniDate® 15.0 - EPA Reg. No. 70299-26

SaniDate 15.0 (EPA Reg. No. 70299-26) is labeled for a variety of uses in commercial, industrial, agricultural, and post-harvest applications including:

- Hard surface sanitization and disinfection against human health pathogens on food contact and non-food contact surfaces and equipment in federally inspected meat, seafood and poultry facilities, egg processing facilities, poultry and animal housing facilities, pet food plants, fruit and vegetable processing plants, dairies, wineries, breweries, beverage plants, and raw/unprocessed fruit, nut and vegetable packing houses.
- Surface treatment of food and non-food contact surfaces used in processing post-harvest commodities.
- Suppression and control of microorganisms that cause decay and/or spoilage on raw, post-harvest and fresh cut fruits and vegetables.
- Post-harvest spray treatment directly to fruits and vegetables without the requirement of a final rinse.
- Treatment of processed fruit and vegetable surfaces to control the growth of non-public health microorganisms.
- Cleaning poultry and livestock watering systems

The active ingredients in SaniDate 15.0, hydrogen peroxide (H₂O₂) and peroxyacetic acid (PAA), as listed in 40 CFR §180.1197 and 40 CFR §180.1196, are US EPA-exempt from the requirement of a tolerance. Additionally, hydrogen peroxide and acetic acid are considered Generally Recognized as Safe (GRAS) by the FDA under 21 CFR § 184.

Upon contact with materials such as plant tissue, organic matter, and microorganisms, hydrogen peroxide and peroxyacetic acid break down immediately into water, oxygen and acetic acid. Acetic acid breaks down to carbon dioxide and water. None of the moieties resulting from degradation pose any toxicological concern.

In addition, SaniDate 15.0 is USDA National Organic Program (NOP) compliant for use in food processing operations as per the requirements outlined in 7 CFR §205.605.

Sincerely,

A handwritten signature in blue ink that reads "Miriam Carr".
