

Safety Data Sheet

acc. to 29 CFR 1910.1200 App D

Drexel Damoil Supreme

Version number: 1.0

Date of compilation: 2025-12-19

SECTION 1: Identification

1.1 Product identifier

Trade name

Drexel Damoil Supreme

1.1.7.2 EPA Reg. No.

19713-708

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses

Use in organic production

1.3 Details of the supplier of the safety data sheet

Drexel Chemical Company, Inc
1700 Channel Avenue
Memphis TN 38113-0327
United States

Telephone: +1 (901) 774-4370
e-mail: info@drexchem.com
Website: <https://www.DrexChem.com>
e-mail (competent person)

cbothwell@drexchem.com (Cyndi Bothwell)

1.4 Emergency telephone number

Emergency information service

CHEMTREC 800-424-9300
DREXEL CHEMICAL CO. 901-774-4370

This product is an EPA FIFRA registered pesticide. Some of the classifications on this SDS are not the same as the FIFRA label. Certain sections of this SDS are superseded by federal law governed by EPA for a registered pesticide. Refer to SECTION 15: REGULATORY INFORMATION for explanation.

SECTION 2: Hazard(s) identification

2.1 Classification of the substance or mixture

Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

Hazard class and category code(s)

Section	Hazard class	Category	Hazard class and category	Hazard statement
3.1I	acute toxicity (inhal.)	4	Acute Tox. 4	H332
3.2	skin corrosion/irritation	2	Skin Irrit. 2	H315
3.3	serious eye damage/eye irritation	2B	Eye Irrit. 2B	H320

2.2 Label elements

Labelling acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

- Signal word warning

- Pictograms

GHS07

Safety Data Sheet

acc. to 29 CFR 1910.1200 App D

Drexel Damoil Supreme

Version number: 1.0

Date of compilation: 2025-12-19

Hazard statements

Causes skin and eye irritation.
Harmful if inhaled.

- Precautionary statements

Obtain special instructions before use.
Do not handle until all safety precautions have been read and understood.
Avoid breathing dust/fume/gas/mist/vapors/spray.
Do not eat, drink or smoke when using this product.
Use only outdoors or in a well-ventilated area.
Wear protective gloves.
[In case of inadequate ventilation] wear respiratory protection.
If on skin: Wash with plenty of water.
If inhaled: Remove person to fresh air and keep comfortable for breathing.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
Call a poison center/doctor if you feel unwell.
Take off contaminated clothing and wash it before reuse.
Store in a well-ventilated place. Keep container tightly closed.
Store locked up.
Dispose of contents/container in accordance with local/regional/national/international regulations.

2.3 Other hazards

Results of PBT and vPvB assessment

Does not contain a PBT-/vPvB-substance at a concentration of $\geq 0.1\%$.

Endocrine disrupting properties

Does not contain an endocrine disruptor (ED) in a concentration of $\geq 0.1\%$.

SECTION 3: Composition/information on ingredients

3.1 Substances

Not relevant (mixture)

3.2 Mixtures

Description of the mixture

Name of substance	Identifier	Wt%	Classification acc. to GHS	Pictograms
Mineral Oil	CAS No 8012-95-1	98	Asp. Tox. 1 / H304	
Inert Ingredients	CAS No non-hazardous	2		

SECTION 4: First-aid measures

4.1 Description of first-aid measures

Following inhalation

Provide fresh air. If breathing is irregular or stopped, immediately seek medical assistance and start first aid actions. In case of respiratory tract irritation, consult a physician.

Safety Data Sheet

acc. to 29 CFR 1910.1200 App D

Drexel Damoil Supreme

Version number: 1.0

Date of compilation: 2025-12-19

Following skin contact

After contact with skin, take off immediately all contaminated clothing, and wash immediately with plenty of water. In all cases of doubt, or when symptoms persist, seek medical advice.

Following eye contact

Remove contact lenses, if present and easy to do. Continue rinsing. Irrigate copiously with clean, fresh water for at least 10 minutes, holding the eyelids apart. Get medical advice/attention.

Following ingestion

Call a poison control center or doctor immediately for treatment advice. Rinse mouth with water (only if the person is conscious). Do NOT induce vomiting.

4.2 Most important symptoms and effects, both acute and delayed

Symptoms and effects are not known to date.

4.3 Indication of any immediate medical attention and special treatment needed

Contains petroleum distillates and may pose an aspiration pneumonia hazard. Treat symptomatically.

SECTION 5: Fire-fighting measures

5.1 Extinguishing media

Suitable extinguishing media

Foam, Carbon dioxide (CO₂), Water fog

Unsuitable extinguishing media

Water jet

5.2 Special hazards arising from the substance or mixture

Non-combustible, substance itself does not burn but may decompose upon heating to produce corrosive fumes.

Hazardous combustion products

Carbon monoxide (CO), Carbon dioxide (CO₂), Thermal decomposition during a fire can produce fumes and irritating gases.

5.3 Advice for firefighters

Keep containers cool with water spray. Coordinate firefighting measures to the fire surroundings. Do not allow firefighting water to enter drains or water courses. Collect contaminated firefighting water separately. Fight fire with normal precautions from a reasonable distance.

Special protective equipment for firefighters

Chemical protective clothing, Wear self-contained breathing apparatus, MSHA/NIOSH, Use full face shield and operate in positive pressure mode., Avoid contact with this material during firefighting operations. If contact is likely, change to full chemical resistant firefighting clothing with self-contained breathing apparatus. If this is not available, wear full chemical resistant clothing with self-contained breathing apparatus and fight fire from a remote location. For protective equipment in post-fire or non-fire clean-up situations, refer to the relevant sections.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Remove persons to safety.

For emergency responders

Isolate area. Ventilate area of leak or spill. Use appropriate safety equipment.

6.2 Environmental precautions

Prevent from entering soil, ditches, sewers, waterways, and/or groundwater.

6.3 Methods and material for containment and cleaning up

Drexel Damoil Supreme

Version number: 1.0

Date of compilation: 2025-12-19

Advice on how to contain a spill

Covering of drains, Stop the flow of material, if this is without risk.

Advice on how to clean up a spill

Wipe up with absorbent material (e.g. cloth, fleece). Collect spillage: absorbent material (e.g. sand, diatomaceous earth, acid binder, universal binder, sawdust, etc.), Collect in suitable and properly labeled containers. Large spills: Contact Drexel Chemical Company for clean-up assistance.

6.4 Reference to other sections

Refer to Section 7: HANDLING AND STORAGE, for additional precautionary measures. Personal protective equipment: see section 8. Refer to SECTION 12: Ecological Information. Disposal considerations: see section 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Recommendations

- Measures to prevent fire as well as aerosol and dust generation

Use only in well-ventilated areas. Prevent from heating up above 50 °C/122 °F. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

Advice on general occupational hygiene

Wash hands after use. Do not eat, drink and smoke in work areas. Keep away from food, drink and animal feedingstuffs. Avoid contact with eyes, skin, and clothing. Avoid breathing dust/fume/gas/mist/vapors/spray. Wear chemical protective equipment when handling. Wear long-sleeved shirt, long pants, and shoes with socks when handling.

7.2 Conditions for safe storage, including any incompatibilities

Managing of associated risks

- Explosive atmospheres

Keep container tightly closed and in a well-ventilated place. Store at temperatures not exceeding 50 °C/122 °F. Keep cool.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limit values (Workplace Exposure Limits)

Occupational exposure limit values (Workplace Exposure Limits)											
Country	Name of agent	CAS No	Identifier	TWA [ppm]	TWA [mg/m³]	STEL [ppm]	STEL [mg/m³]	Ceiling-C [ppm]	Ceiling-C [mg/m³]	Notation	Source
US	mineral oil	8012-95-1	PEL (CA)		5					dm, method NoV	Cal/OSH A PEL
US	mineral oil	8012-95-1	TLV®		5					i, exMet WorkFl	ACGIH® 2025
US	mineral oil	8012-95-1	REL		5 (10 h)		10			mist	NIOSH REL
US	mineral oil	8012-95-1	PEL		5					mist	29 CFR 1910.1000

Notation

Ceiling-C
dm ceiling value is a limit value above which exposure should not occur as dusts and mists

Safety Data Sheet

acc. to 29 CFR 1910.1200 App D

Drexel Damoil Supreme

Version number: 1.0

Date of compilation: 2025-12-19

Notation

exMetWorkFl excluding metal working fluids

i inhalable fraction

methodNoV As sampled by method that does not collect vapor

mist as mists

STEL short-term exposure limit: a limit value above which exposure should not occur and which is related to a 15-minute period (unless otherwise specified)

TWA time-weighted average (long-term exposure limit): measured or calculated in relation to a reference period of 8 hours time-weighted average (unless otherwise specified)

8.2 Exposure controls

Appropriate engineering controls

Exhaust ventilation. Use engineering controls to maintain airborne level below exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, use only with adequate ventilation. Local exhaust ventilation may be necessary for some operations. Ensure that eyewash stations and safety showers are close to the workstation location.

Individual protection measures (personal protective equipment)

Eye/face protection

Work with safety glasses. Use safety goggle with side protection. Wear face-shield. Use protective eyewear to guard against splash of liquids.

Skin protection

Use protective clothing chemically resistant to this material. Selection of specific items such as face shield, boots, apron, or full body suit will depend on the task. Safety shower should be located in immediate work area. Remove contaminated clothing immediately, wash skin area with soap and water, and launder clothing before reuse or dispose of properly. Items which cannot be decontaminated, such as shoes, belts and watchbands, should be removed and disposed of properly.

- Hand protection

Chemical protection gloves are suitable, which are tested according to EN 374. Examples of preferred glove barrier materials include Neoprene, Nitrile/butadiene rubber or Polyvinyl chloride.

- Other protection measures

Avoid ingestion of even very small amounts; do not consume or store food or tobacco in the work area; wash hands and face thoroughly with soap and water before smoking or eating. Avoid getting wash water in eyes.

Respiratory protection

Respiratory protection should be worn when there is a potential to exceed the exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, use an approved respirator. Selection of air-purifying or positive-pressure supplied-air will depend on the specific operation and the potential airborne concentration of the material. When handling in enclosed areas, when large quantities of dusts are generated or prolonged exposure is possible in excess of the TLV, use a respirator with either an organic vapor-removing cartridge with a prefilter approved for pesticides (MSHA/NIOSH approval number prefix TC-23C) or a canister approved for pesticides (MSHA/NIOSH approval number prefix TC-14G).

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state	liquid
Color	colorless
Odor	Slight petroleum
Melting point/freezing point	not determined
Boiling point or initial boiling point and boiling	not determined

Safety Data Sheet

acc. to 29 CFR 1910.1200 App D

Drexel Damoil Supreme

Version number: 1.0

Date of compilation: 2025-12-19

range	
Flammability	Not classified as flammable under GHS.
Lower and upper explosion limit	not determined
Flash point	>350 °F
Auto-ignition temperature	>590 °F
Decomposition temperature	>480 °F
pH (value)	5 – 8 (in aqueous solution: 5 vol%)

Solubility(ies)

Water solubility	Emulsifies
------------------	------------

Partition coefficient

Partition coefficient n-octanol/water (log value)	this information is not available
---	-----------------------------------

Density and/or relative density

Density	7.17 lb/gal
---------	-------------

SECTION 10: Stability and reactivity

10.1 Reactivity

This material is not reactive under normal ambient conditions.

10.2 Chemical stability

Stable under normal conditions of use.

10.3 Possibility of hazardous reactions

No known hazardous reactions.

10.4 Conditions to avoid

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

10.5 Incompatible materials

Oxidizers

10.6 Hazardous decomposition products

Hazardous combustion products: see section 5.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Classification procedure

The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

Safety Data Sheet

acc. to 29 CFR 1910.1200 App D

Drexel Damoil Supreme

Version number: 1.0

Date of compilation: 2025-12-19

Acute toxicity

May be harmful in contact with skin. Harmful if inhaled.

- Acute toxicity estimate (ATE)

Oral >2,000 mg/kg
Dermal >2,000 mg/kg
Inhalation: vapor >3.02 mg/l/4h

Acute toxicity				
Exposure route	Endpoint	Value	Species	Notes
oral	LD50	>2,000 mg/kg	rat	
oral	LD50	>100 µg/kg	bee	
oral	LD50	>5,620 mg/kg	duck	
oral	LD50	>5,620 mg/kg	quail	
dermal	LD50	>2,000 mg/kg	rat	
inhalation: vapor	LC50	>3.02 mg/l/1h	rat	

Skin corrosion/irritation

Causes mild skin irritation.

Serious eye damage/eye irritation

Causes eye irritation.

Respiratory or skin sensitization

Shall not be classified as a respiratory or skin sensitizer.

Germ cell mutagenicity

Shall not be classified as germ cell mutagenic.

Carcinogenicity

Shall not be classified as carcinogenic.

Reproductive toxicity

Shall not be classified as a reproductive toxicant.

Aspiration hazard

Shall not be classified as presenting an aspiration hazard.

SECTION 12: Ecological information

12.1 Toxicity

No data available.

12.2 Persistence and degradability

Data are not available.

12.3 Bioaccumulative potential

Data are not available.

12.4 Mobility in soil

Data are not available.

12.5 Results of PBT and vPvB assessment

Does not contain a PBT-/vPvB-substance at a concentration of $\geq 0.1\%$.

Safety Data Sheet

acc. to 29 CFR 1910.1200 App D

Drexel Damoil Supreme

Version number: 1.0

Date of compilation: 2025-12-19

12.6 Endocrine disrupting properties

Does not contain an endocrine disruptor (ED) in a concentration of $\geq 0.1\%$.

12.7 Other adverse effects

Do not contaminate water supplies, lakes, streams, ponds, or drains with this product.

SECTION 13: Disposal considerations

Remarks

If wastes and/or containers cannot be disposed of according to the product label directions, disposal of this material must be in accordance with your local or area regulatory authorities. This information presented below only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations. If the material as supplied becomes a waste, follow all applicable regional, national and local laws.

SECTION 14: Transport information

- | | | |
|------|--|---|
| 14.1 | UN number | Not regulated |
| 14.2 | UN proper shipping name | Not regulated |
| 14.3 | Transport hazard class(es) | Not regulated |
| 14.4 | Packing group | Not regulated |
| 14.5 | Environmental hazards | non-environmentally hazardous acc. to the dangerous goods regulations |
| 14.6 | Special precautions for user | There is no additional information. |
| 14.7 | Transport in bulk according to IMO instruments | The cargo is not intended to be carried in bulk. |

Information for each of the UN Model Regulations

Transport of dangerous goods by road or rail (49 CFR US DOT) - Additional information

Not subject to transport regulations.

International Maritime Dangerous Goods Code (IMDG) - Additional information

Not subject to IMDG.

International Civil Aviation Organization (ICAO-IATA/DGR) - Additional information

Not subject to ICAO-IATA.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations specific for the product in question

National regulations (United States)

OSHA Hazard Communication Standard (HCS), 29 CFR 1910.1200

This product does not contain hazardous components as defined under the criteria of the Federal OSHA Hazardous Communication Standard 29 CFR 1910.1200.

Pesticide Registration

This product is a pesticide registered by the Environmental Protection Agency (EPA) and is subject to certain FIFRA labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard

Disclaimer

Drexel Chemical Company recommends that each customer or recipient of this SDS to study it carefully and consult appropriate expertise, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. The information herein is provided in good faith and believed to be accurate as of the effective date shown below. However, no warranty, express or implied, is given. Regulatory requirements are subject to change and may differ between various locations. It is the buyer's/user's responsibility to ensure that his activities comply with all federal, state, provincial or local laws. The information presented here pertains only to the product as shipped. Since conditions for use of the product are not under the control of the manufacturer, it is the buyer's/user's duty to determine the conditions necessary for the safe use of this product. Due to the proliferation of sources for information such as manufacturer-specific SDSs, we are not and cannot be responsible for SDSs obtained from any source other than ourselves. If you have obtained an SDS from another source or if you are not sure that the SDS you have is current, please contact us for the most current version.
