

### SECTION 1: Identification

#### Identification

Product form : Mixture  
Trade name : Naxypro Plus  
Other means of identification : EPA Reg. No. 71368-149

#### Recommended use and restrictions on use

Recommended use : Insecticide  
Restrictions on use : All other uses not recommended above

#### Supplier

Nufarm Americas, Inc.  
11901 South Austin Avenue  
Alsip, IL 60803  
United States  
T 1-800-345-3330  
[www.nufarm.com](http://www.nufarm.com)

#### Emergency telephone number

Emergency number : For Hazardous Materials or Dangerous Goods Incident Spill, Leak, Fire, Exposure, or Accident  
Call CHEMTREC Day or Night: 1-800-424-9300 (Toll Free, USA) / 703-527-3887 (Virginia, USA)  
CCN 16105

### SECTION 2: Hazard(s) identification

#### Classification of the substance or mixture

#### GHS US classification

|                                                               |                                                                                 |
|---------------------------------------------------------------|---------------------------------------------------------------------------------|
| Acute toxicity (oral) Category 4                              | Harmful if swallowed                                                            |
| Acute toxicity (inhalation:dust,mist) Category 4              | Harmful if inhaled                                                              |
| Skin sensitization, Category 1                                | May cause an allergic skin reaction                                             |
| Carcinogenicity Category 2                                    | Suspected of causing cancer                                                     |
| Specific target organ toxicity (repeated exposure) Category 1 | Causes damage to organs (nervous system) through prolonged or repeated exposure |

Full text of H statements : see section 16

#### GHS Label elements, including precautionary statements

#### GHS US labeling

Hazard pictograms (GHS US)

Signal word (GHS US) : Danger

Hazard statements (GHS US) : Harmful if swallowed or if inhaled  
May cause an allergic skin reaction  
Suspected of causing cancer  
Causes damage to organs (nervous system) through prolonged or repeated exposure

Precautionary statements (GHS US) : Obtain special instructions before use.  
Do not handle until all safety precautions have been read and understood.  
Do not breathe mist, spray, vapors, gas.  
Wash hands, forearms and face thoroughly after handling.

# Naxypro Plus

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Do not eat, drink or smoke when using this product.  
Use only outdoors or in a well-ventilated area.  
Contaminated work clothing must not be allowed out of the workplace.  
Wear protective clothing, eye protection, face protection, protective gloves.  
If swallowed: Call a poison center or doctor if you feel unwell.  
Rinse mouth.  
If on skin: Wash with plenty of water.  
If skin irritation or rash occurs: Get medical advice/attention.  
Wash contaminated clothing before reuse.  
If inhaled: Remove person to fresh air and keep comfortable for breathing.  
Call a poison center or doctor if you feel unwell.  
If exposed or concerned: Get medical advice/attention.  
Store locked up.  
Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation.

### Other hazards which do not result in classification

No additional information available

### Unknown acute toxicity (GHS US)

No additional information available

## SECTION 3: Composition/Information on ingredients

### Substances

| Name                          | Product identifier   | %             | GHS US classification                                                                                                                                                       |

Full text of hazard classes and H-statements : see section 16

## SECTION 4: First-aid measures

### Description of first aid measures

First-aid measures general : First aider: Pay attention to self-protection. Never give anything by mouth to an unconscious person. Give artificial respiration if necessary. Induce artificial respiration with mask fitted with one-way valve or other suitable device but not mouth-to-mouth.

First-aid measures after inhalation : Remove person to fresh air and keep comfortable for breathing. If experiencing respiratory symptoms: Call a poison center or a doctor.

First-aid measures after skin contact : Wash skin with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

First-aid measures after eye contact : Rinse eyes with water as a precaution. If eye irritation persists: Get medical advice/attention.

First-aid measures after ingestion : Rinse mouth. Do NOT induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Call a poison center/doctor/physician if you feel unwell.

# Naxypro Plus

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

### Most important symptoms and effects (acute and delayed)

|                                     |                                                                   |
|-------------------------------------|-------------------------------------------------------------------|
| Symptoms/effects after inhalation   | : May cause headache, nausea and irritation of respiratory tract. |
| Symptoms/effects after skin contact | : May cause an allergic skin reaction.                            |
| Symptoms/effects after eye contact  | : None under normal conditions.                                   |
| Symptoms/effects after ingestion    | : Ingestion may cause nausea and vomiting.                        |
| Most Important Symptoms/Effects     | : May cause an allergic skin reaction.                            |

### Immediate medical attention and special treatment, if necessary

Treat symptomatically.

## SECTION 5: Fire-fighting measures

### Suitable (and unsuitable) extinguishing media

|                                |                                                  |
|--------------------------------|--------------------------------------------------|
| Suitable extinguishing media   | : Water spray. Dry powder. Foam. Carbon dioxide. |
| Unsuitable extinguishing media | : Do not use a heavy water stream.               |

### Specific hazards arising from the chemical

|                                                  |                                                                                                               |
|--------------------------------------------------|---------------------------------------------------------------------------------------------------------------|
| Fire hazard                                      | : No fire hazard.                                                                                             |
| Hazardous decomposition products in case of fire | : Thermal decomposition generates : Carbon dioxide. Carbon monoxide. Chlorine. Nitrous oxide. Sulphur oxides. |

### Special protective equipment and precautions for fire-fighters

|                                |                                                                                                                 |
|--------------------------------|-----------------------------------------------------------------------------------------------------------------|
| Firefighting instructions      | : Use water spray or fog for cooling exposed containers. Prevent fire-fighting water from entering environment. |
| Protection during firefighting | : Self-contained breathing apparatus. Complete protective clothing.                                             |

## SECTION 6: Accidental release measures

### Personal precautions, protective equipment and emergency procedures

|                  |                                                                                                                                 |
|------------------|---------------------------------------------------------------------------------------------------------------------------------|
| General measures | : Avoid all personal contact including breathing in the mist, spray, vapors, gas. Do not take actions involving personal risks. |
|------------------|---------------------------------------------------------------------------------------------------------------------------------|

### For non-emergency personnel

|                      |                                                                                                                                                                                                                                              |
|----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Protective equipment | : Wear the recommended personal protective equipment.                                                                                                                                                                                        |
| Emergency procedures | : Evacuate the danger area. If outdoors, move to an area upwind of the danger area. If possible without taking personal risks, remove ignition sources, ventilate area. Prevent other non-emergency personnel from entering the danger area. |

### For emergency responders

|                      |                                                               |
|----------------------|---------------------------------------------------------------|
| Protective equipment | : Wear the recommended personal protective equipment.         |
| Emergency procedures | : Evacuate personnel to a safe area. Ventilate spillage area. |

### Environmental precautions

Very toxic to aquatic life with long lasting effects. Do not let the product reach soil, drains, sewers, or surface and ground water.

### Methods and material for containment and cleaning up

|                         |                                                                                                                                                                                                                                                                                                                                                                                                             |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| For containment         | : Contain with non-combustible inert absorbent.                                                                                                                                                                                                                                                                                                                                                             |
| Methods for cleaning up | : Take up in non-combustible inert absorbent and place into container for disposal. Decontaminate surfaces and equipment with water and detergent. Until a sufficient level of dilution is achieved, the decontamination water may pose the same hazards as the product. Dispose of collected material as soon as possible in accordance with applicable local/regional/national/international regulations. |

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

### Reference to other sections

For further information refer to section 8: "Exposure controls/personal protection". For further information refer to section 13.

## SECTION 7: Handling and storage

### Precautions for safe handling

|                               |                                                                                                                                                                                                         |
|-------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Precautions for safe handling | : Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear personal protective equipment. Use only outdoors or in a well-ventilated area. |
| Hygiene measures              | : Do not eat, drink or smoke when using this product. Always wash hands after handling the product. Contaminated work clothing should not be allowed out of the workplace.                              |

### Conditions for safe storage, including any incompatibilities

|                    |                                                                                       |
|--------------------|---------------------------------------------------------------------------------------|
| Storage conditions | : Store locked up. Keep cool. Protect from sunlight. Keep only in original container. |
|--------------------|---------------------------------------------------------------------------------------|

|--------------------------------------------|--------------------------------------------------------------------------------------------------------------|
| USA - ACGIH - Occupational Exposure Limits |                                                                                                              |
| Local name                                 | Silica crystalline - quartz                                                                                  |
| ACGIH OEL TWA                              | 0.025 mg/m³ (R - Respirable particulate matter)                                                              |
| Remark (ACGIH)                             | TLV® Basis: Pulm fibrosis; lung cancer. Notations: A2 (Suspected Human Carcinogen)                           |
| Regulatory reference                       | ACGIH 2024                                                                                                   |
| USA - OSHA - Occupational Exposure Limits  |                                                                                                              |
| Local name                                 | Quartz (Total Dust) (Silica: Crystalline)                                                                    |
| Remark (OSHA)                              | Table Z-3. For OSHA PEL (TWA) use formula: (30 mg/m³ / (%SiO₂+2)) for mg/m³. CAS No. source: eCFR Table Z-1. |
| Regulatory reference (US-OSHA)             | OSHA Annotated Table Z-3 Mineral Dusts                                                                       |

### Appropriate engineering controls

|                                  |                                                                                                                                                                                                   |
|----------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Appropriate engineering controls | : Ensure good ventilation of the work station. Use general ventilation, local exhaust ventilation or process enclosure to keep the airborne concentrations below the permissible exposure limits. |
| Environmental exposure controls  | : Avoid release to the environment. Take measures to reduce or limit air emissions and releases to soil and the aquatic environment.                                                              |

### Individual protection measures/Personal protective equipment

#### Personal protective equipment:

Personal protective equipment should be chosen according to national standards and in discussion with the supplier of the protective equipment.

|                                            |

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

### SECTION 10: Stability and reactivity

|                                    |                                                                                                                 |
|------------------------------------|-----------------------------------------------------------------------------------------------------------------|
| Reactivity:                        | : The product is non-reactive under normal conditions of use, storage and transport.                            |
| Chemical stability                 | : Stable under normal conditions of use.                                                                        |
| Possibility of hazardous reactions | : No dangerous reactions known under normal conditions of use.                                                  |
| Conditions to avoid                | : Incompatible materials.                                                                                       |
| Incompatible materials             | : Oxidizing agents. Strong acids. Strong bases.                                                                 |
| Hazardous decomposition products   | : Thermal decomposition generates : Carbon dioxide. Carbon monoxide. Chlorine. Nitrogen oxides. Sulphur oxides. |

### SECTION 11: Toxicological information

#### Information on toxicological effects

|                             |                                             |
|-----------------------------|---------------------------------------------|
| Acute toxicity (oral)       | : Harmful if swallowed.                     |
| Acute toxicity (dermal)     | : Not classified                            |
| Acute toxicity (inhalation) | : Inhalation:dust,mist: Harmful if inhaled. |

| Naxypro Plus          |                          |
|-----------------------|--------------------------|
| LD50 oral rat         | 500 mg/kg body weight    |
| LD50 dermal rat       | > 2000 mg/kg body weight |
| LC50 Inhalation - Rat | 1.107 – 2.218 mg/l/4h    |

|                                   |                                                                                 |
|-----------------------------------|---------------------------------------------------------------------------------|
| Skin corrosion/irritation         | : Not classified. Not irritating to rabbits on cutaneous application<br>pH: 6.8 |
| Serious eye damage/irritation     | : Not classified. Not irritating to rabbits on ocular application<br>pH: 6.8    |
| Respiratory or skin sensitization | : Local Lymph Node Assay - Sensitizing                                          |
| Germ cell mutagenicity            | : Not classified                                                                |
| Carcinogenicity                   | : Suspected of causing cancer.                                                  |

| Quartz                                 |                            |
|----------------------------------------|----------------------------|
| IARC group                             | 1 - Carcinogenic to humans |
| National Toxicity Program (NTP) Status | Known Human Carcinogens    |

|                                     |                                                                                    |
|-------------------------------------|------------------------------------------------------------------------------------|
| Reproductive toxicity               | : Not classified                                                                   |
| STOT-single exposure                | : Not classified                                                                   |
| STOT-repeated exposure              | : Causes damage to organs (nervous system) through prolonged or repeated exposure. |
| Aspiration hazard                   | : Not classified                                                                   |
| Viscosity, kinematic                | : 129.619 mm <sup>2</sup> /s                                                       |
| Symptoms/effects after inhalation   | : May cause headache, nausea and irritation of respiratory tract.                  |
| Symptoms/effects after skin contact | : May cause an allergic skin reaction.                                             |
| Symptoms/effects after eye contact  | : None under normal conditions.                                                    |
| Symptoms/effects after ingestion    | : Ingestion may cause nausea and vomiting.                                         |
| Most Important Symptoms/Effects     | : May cause an allergic skin reaction.                                             |

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

### SECTION 12: Ecological information

#### Toxicity

Ecology - general : Very toxic to aquatic life with long lasting effects.

| Chlorantraniliprole Technical |            |
|-------------------------------|------------|
| LC50 - Fish [1]               | 1.83 mg/l  |
| EC50 - Crustacea [1]          | 1.3 mg/l   |
| ErC50 algae                   | 0.046 mg/l |

#### Persistence and degradability

| Chlorantraniliprole Technical |  |
|-------------------------------|--|
| Not rapidly degradable        |  |

#### Bioaccumulative potential

| Chlorantraniliprole Technical       |                         |
|-------------------------------------|-------------------------|
| Bioconcentration factor (BCF REACH) | 19                      |
| Bioaccumulative potential           | Does not bioaccumulate. |

#### Mobility in soil

No additional information available

#### Other adverse effects

No additional information available

### SECTION 13: Disposal considerations

#### Disposal methods

Regional waste regulation : Disposal must be done according to official regulations.  
Waste treatment methods : Dispose of contents/container in accordance with licensed collector's sorting instructions.  
Product/Packaging disposal recommendations : Dispose of this material and its container at hazardous or special waste collection point. Refer to all applicable national, international and local regulations or provisions.  
Ecological information : Avoid release to the environment.

### SECTION 14: Transport information

In accordance with DOT / IMDG / IATA
