MarshalTM Imazapic Herbicide

EPA Reg. No. 66222-141-101563

For control of bulbous bluegrass (*Poa bulbosa*) and ventenata (*Ventenata dubia*) on Non-cropland areas, Rangeland, Pastures, Conservation Reserve Program (CRP) lands, and Natural Areas.

FIFRA Section 2(ee) Recommendation: This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the EPA. This product bulletin should be in the possession of the user at the time of application of the product. All applicable directions, restrictions and precautions on the EPA registered label are to be followed.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its label.

Marshal Imazapic Herbicide may be used for control or suppression of bulbous bluegrass (*Poa bulbosa*) and ventenata (*Ventenata dubia*) in rangeland, pastures, conservation reserve program (CRP) lands, and natural areas. Apply Marshal Imazapic Herbicide at rates of 5 to 7 fluid ounces product per acre, except when sandy soils are present use a maximum rate of 4 fluid ounces of product per acre. For best results, applications should be made on bulbous bluegrass in the spring or fall when plants are actively growing. For ventenata, applications should be made pre-emergent, or early post-emergent before tillering. For long-term control, mix Marshal Imazapic with Rejuvra Herbicide at a rate of 5 to 7 fluid ounces product per acre.

IMPORTANT PRECAUTIONS*:

Perennial grass injury may occur with imazapic, especially in the spring application timing, in sandy soils, or when more sensitive perennial grass species are present, such as smooth brome and crested wheatgrass. To reduce perennial grass injury, lower end of rate range should be used for applications made to sandy soils or when sensitive species are present. Applications should be made according to directions on the Marshal Imazapic label.

*Not recommended to exceed 4 oz/A of Marshal Imazapic when sandy soils are present to reduce perennial grass injury.
