Product may stain textiles and clothing.

FIRST AID

If on skin or clothing:	- Take off contaminated clothing. - Rinse skin immediately with plenty of water for 15-20 minutes. - Call a poison control center or doctor for treatment advice.
If in eyes:	- Hold eye open and rinse slowly and gently with water for 15-20 minutes. - Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. - Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-424-9300 for emergency medical treatment information.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, and clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

PHYSICAL AND CHEMICAL HAZARDS: Do not use this product in or on electrical equipment where a possibility of shock hazard exists.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Use MAXFORCE FC MAGNUM ROACH KILLER BAIT GEL as a spot or crack and crevice treatment for the indoor and outdoor (adjacent to homes & structures) control of cockroaches in residential areas and the non-food/non-feed areas of institutional, warehousing and commercial establishments, warehouses, restaurants, food processing plants, supermarkets, hospitals, nursing homes, motels, hotels, apartment buildings, bakeries, beverage plants, breweries, bottling facilities, candy plants, canneries, cereal processing and manufacturing plants, dairies and dairy product processing plants, frozen food plants, schools, laboratories, computer facilities, sewers, "aircraft," buses, boats/ships,

trains, homes, houses, industrial buildings, office buildings, kennels, kitchens, manufacturing facilities, spice plants, stores, wineries and similar structures, mausoleums, meat processing and packaging plants, meat and vegetable canneries, pet shops, and zoos. Non-food/non-feed areas include bedrooms, living rooms, bathrooms, closets, media rooms, garbage rooms, lavatories, entries, and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets, and storage (after canning or bottling). This product may also be used in food/feed areas of food/feed handling establishments as outlined below.

USE RESTRICTIONS

- Keep gel away from foods and food contact or preparation surfaces.
- Do not apply to areas where food/feed, utensils, or processing surfaces may become contaminated.
- USE ONLY IN AREAS NOT EASILY ACCESSIBLE TO CHILDREN, PETS, AND OTHER NON-TARGET ORGANISMS.
- In pet shops and zoos place bait out of reach of pets and zoo animals.
- Do not apply bait to surfaces where the temperature exceeds 130F as bait may run.
- Do not deposit gel onto exposed surfaces.
- Do not apply bait gel to areas which have been recently sprayed with insecticide.
- Do not spray insecticide over gel as it may cause the bait to become repellent.
- Do not apply bait to areas that are routinely washed such as cracks and crevices in tops of tables, food/prep and prepared food hold surfaces. Bait may be removed by washing.

USE DIRECTIONS

Place bait into cracks and crevices or openings leading into voids, or make spot applications near harborage, aggregation, foraging / feeding areas.

Locations for bait placement: between different elements of construction; the hollow spaces in floors, walls, ceilings, or in equipment legs and bases; cracks and crevices around pipes, doors or windows, refrigerators, stoves, water heaters, dishwashers, and other equipment; behind or under baseboards, cupboards, cabinets, countertops, sinks; and, wherever cockroaches may be found hiding.

Numerous smaller placements will provide faster control than fewer larger spots, especially for German cockroach control.

Application rates for all cockroaches: Application rate is dependent on level of infestation and species to be controlled. Apply gel as round spots or thin beads into cracks and crevices or as a spot treatment.

- For use in **maintenance programs** where regular (monthly, quarterly) applications are made for continuous control of cockroach populations, use 0.75 grams of bait per square yard.
- For **light to moderate infestations** (or for retreatments), use up to 1.5 grams of bait per square yard.
- To **clean out severe or heavy infestations**, use up to 3.0 grams of bait per square yard.

BAIT QUANTITY REFERENCE TABLE

Approximate weight per spot diameter	Approximate weight per bead length
0.1 gram = Pea size spot	1/3 gram = 1.5 inch bead
1.0 gram = Dime size spot	2/3 gram = 3.0 inch bead
1.5 gram = Quarter size spot	1 1/3 gram = 6 inch bead

continued on back

APPLICATIONS IN FOOD/FEED HANDLING ESTABLISHMENTS

Application within food/feed areas of food/feed handling establishments is limited to crack and crevice treatment only. Do not deposit gel onto exposed surfaces; if gel contacts an exposed surface where food is handled, remove gel and wash exposed surface followed by a potable water rinse.

Do not apply bait to areas that are routinely washed such as cracks and crevices in tops of tables, food/prep and prepared food hold surfaces. Bait may be removed by washing.

Do not apply bait to surfaces where the temperature exceeds 130F as bait may run.

Food/feed areas include areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage, and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas are also considered a food/feed area when food is exposed and facility is in operation.

Application of this product in food/feed areas of food/feed handling establishments other than as a crack and crevice treatment is not permitted.

FOR OUTDOOR USE (adjacent to home or structure)

Inject bait into cracks and crevices or expansion joints around windows and doors, porches, screens, eaves, sills, patios, garages, under stairways and other areas adjacent to structures where cockroaches may find harborage.

Refillable stations: MAXFORCE FC MAGNUM ROACH KILLER BAIT GEL may be placed into refillable bait stations designed for interior or exterior use; when placing bait in stations do not exceed 1 gm (1/5 teaspoon) and do not exceed the capacity of the stations. Close the station securely after application. During follow up visits inspect placements and reapply as needed.

PANTRY PESTS: To control exposed, adult stages of beetles: cadelle, cigarette beetle, confused flour beetle, dermestid, drugstore beetle, flat grain beetle, granary weevil, lesser grain borer, lesser mealworm, mealworm, merchant grain beetle, red flour beetle, rice weevil, rusty grain beetle, saw-toothed grain beetle, spider beetle, or warehouse beetle.

After removing infested foodstuffs and cleaning up spilled foodstuffs and dust, applications of this product will kill adult stages of beetles remaining in area. Apply in voids, cracks and crevices, behind and under cupboards, and other difficult to reach areas where insects may hide. Application rate is dependent on level of infestation.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dry area out of reach of children.

PESTICIDE DISPOSAL: If Partly Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

CONTAINER HANDLING: If Empty: Do not reuse container. Place in trash or offer for recycling if available.

If you have questions regarding the use of this product, please call 1-800-331-2867.
