

SAFETY DATA SHEET

1. Identification

Product identifier

Product Name Praiz® NG Fungicide

EPA Reg. No. 1381-277

Recommended use of the chemical and restrictions on use

Recommended use Agricultural fungicide

Restrictions on use See product label for information regarding restriction on the use of this product

Details of the supplier of the safety data sheet

Supplier Address

Winfield Solutions, LLC
P.O. Box 64589
St. Paul, MN 55164-0589

For Non-Emergency Business Inquiries:
1-855-494-6343 (Mon - Fri 8am - 5pm CST)

Emergency telephone numbers FOR MEDICAL EMERGENCY: 1-877-424-7452 (24 hrs.)

FOR CHEMICAL EMERGENCY, SPILL, LEAK, FIRE, EXPOSURE OR ACCIDENT, CALL:
CHEMTREC 1-800-424-9300 (24 hrs.)

2. Hazard(s) identification

Classification

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200).

Acute toxicity - Inhalation (Dusts/Mists)	Category 4
Serious eye damage/eye irritation	Category 1
Skin sensitization	Category 1
Carcinogenicity	Category 2
Specific Target Organ Toxicity (single exposure)	Category 3

Hazards not otherwise classified (HNOC)

Not applicable.

Signal Word: DANGER

Hazard statements

Harmful if inhaled.
Causes serious eye damage.
May cause an allergic skin reaction.
Suspected of causing cancer.
May cause respiratory irritation.

Hazard Identification continued.....

Precautionary Statements - Prevention

Obtain special instructions before use.

Do not handle until all safety precautions have been read and understood.

Do not get in eyes or on skin or clothing.

Wear protective gloves, protective clothing, and eye protection/face protection.

Avoid breathing mist, vapors, or spray.

Use only outdoors or in a well-ventilated area.

Contaminated work clothing must not be allowed out of the workplace.

Precautionary Statements - Response

IF exposed or concerned: Get medical advice/attention.

IF IN EYES: Rinse cautiously with water for 15 - 20 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Do not rub eyes. Seek immediate medical advice/attention.

IF ON SKIN: Wash with plenty of water and soap. If skin irritation or rash occurs: Get medical attention. Wash contaminated clothing before reuse

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a poison control center or doctor if you feel unwell.

Precautionary Statements - Storage

Store in a locked, well-ventilated area. Keep container tightly closed. See Section 7 and the product label for further information on disposal.

Precautionary Statements - Disposal

Dispose of contents/container in accordance with Federal, state and local regulations. See Section 13 and the product label for further information on disposal.

3. Composition/information on ingredients

Mixture

Chemical name	CAS No	Weight-%	Trade secret
Chlorothalonil	1897-45-6	54.0	-

4. First-aid measures

Description of first aid measures**General advice**

Have the product container, label, or Safety Data Sheet with you when calling the emergency number, a poison control center or doctor, or going for treatment.

Inhalation

Remove to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferable by mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

Eye contact

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Do not rub eyes. Call a poison control center or doctor immediately for treatment advice.

Skin contact

Take off contaminated clothing. Rinse skin immediately with plenty of soap and water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Ingestion

Call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person.

Self-protection of the first aider

Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. Avoid breathing mist, vapors, or spray. Do not use mouth-to-mouth method if victim ingested or inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Use personal protective equipment as required. See section 8 for more information. Do not get in eyes or on skin or clothing.

First aid measures continued.....

Most important symptoms and effects, both acute and delayed**Symptoms**

May cause blindness. Eye pain, eye redness/irritation, tearing, inability to keep the eye open. Coughing and/or wheezing. Difficulty breathing. Burning sensation. Itching. Rash. Hives.

Indication of any immediate medical attention and special treatment needed**Note to physicians**

Probably mucosal damage may contraindicate the use of gastric lavage. Persons suffering with temporary allergic skin reactions may respond to treatment with oral antihistamines and topical or oral steroids. If this product comes into contact with eyes, irrigate the eye(s) during transport to hospital. Continue the irrigation process until the pH of the eye(s) has been neutralized. Perform an ophthalmic exam. Treat based on the grade of the eye injury.

5. Fire-fighting measures**Suitable Extinguishing Media**

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable extinguishing media

High volume water stream as it may scatter and spread fire.

Specific hazards arising from the chemical

Product is a skin sensitizer. This product is corrosive to the eyes. Do not breathe fumes. Thermal decomposition can lead to release of irritating and toxic gases and vapors.

Explosion data

Sensitivity to mechanical impact None.
Sensitivity to static discharge None.

Special protective equipment and precautions for fire-fighters

Self-contained breathing apparatus and full protective gear should be worn in fighting large fires involving chemicals. Use water spray to keep fire exposed containers cool. Keep people away. Isolate fire and deny unnecessary entry.

6. Accidental release measures**Personal precautions, protective equipment and emergency procedures****Personal precautions**

Ensure adequate ventilation. Do not get in eyes or on skin or clothing. Avoid breathing mist, vapors, and spray. Use personal protective equipment as required. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.

Other information

Refer to protective measures listed in Sections 7 and 8.

Methods and material for containment and cleaning up**Methods for containment**

Prevent further leakage or spillage if safe to do so.

Methods for cleaning up

Prevent entry into waterways, sewers, basements, or confined areas. Do not flush into surface water or sanitary sewer system. Soak up with inert absorbent material (e.g. sand, silica gel, sawdust). Collect and transfer the product into properly labeled and tightly closed container. Clean contaminated floors and objects thoroughly, observing environmental regulations.

7. Handling and storage

Precautions for safe handling

Advice on safe handling

Do not get in eyes or on skin or clothing. Ensure adequate ventilation. Avoid breathing mist, vapors, and spray. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, using the toilet, or applying cosmetics. Wash contaminated clothing before reuse. Use personal protective equipment as required. Contaminated work clothing must not be allowed out of the workplace.

Conditions for safe storage, including any incompatibilities

Storage Conditions

Keep out of the reach of children. Store in a manner as to prevent cross contamination with other crop protections products, fertilizers, food, and feed. Store in original container. Keep container tightly closed in a dry and well-ventilated place. Store locked up. Do NOT mix or allow to come in contact with oxidizing agents. Hazardous chemical reaction may occur.

8. Exposure controls/personal protection

THE FOLLOWING RECOMMENDATIONS FOR EXPOSURE CONTROLS/PERSONAL PROTECTION ARE INTENDED FOR THE MANUFACTURE, FORMULATION AND PACKAGING OF THE PRODUCT. FOR COMMERCIAL APPLICATIONS AND/OR ON-FARM APPLICATIONS CONSULT THE PRODUCT LABEL.

Exposure Limits

Chemical	CAS. No.	Control Parameter	Basis
Propylene Glycol	57-55-6	10mg/m3 (TWA)	US WEEL

Appropriate engineering controls

Showers
Eyewash stations
Ventilation systems.

Individual protection measures, such as personal protective equipment

Eye/face protection

Tight sealing safety goggles.

Skin and body protection

Impervious clothing. Impervious gloves.

Respiratory protection

If limits are exceeded or irritation occurs, select NIOSH approved equipment based on actual or potential airborne concentrations. This product contains oil a N filter is not recommended.

General hygiene considerations

Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse. Contaminated work clothing must not be allowed out of the workplace.

9. Physical and chemical properties

Information on basic physical and chemical properties

Appearance

Physical state	Liquid
Color	Opaque Off-White
Odor	Mild Sweet

<u>Property</u>	<u>Values</u>
pH	6.5 -7.5
Melting point / freezing point	No information available
Initial boiling point and boiling range	No information available
Flash point	> 230°F (110°C)
Evaporation rate	
Flammability	No information available
Flammability Limit in Air	No information available
Upper flammability or explosive limits	No information available
Lower flammability or explosive limits	No information available
Vapor pressure	No information available
Vapor density	No information available
Relative density	No information available
Water solubility	No information available
Solubility(ies)	No information available
Partition coefficient	No information available
Autoignition temperature	No information available
Decomposition temperature	No information available
Kinematic viscosity	No information available
Dynamic viscosity	No information available

Other information

Explosive properties	Not explosive
Oxidizing properties	No information available
Softening point	No information available
Molecular weight	No information available
VOC Content (%)	No information available
Liquid Density	11.1 lbs/gallon
Bulk density	Not applicable

10. Stability and reactivity

Reactivity	None under normal use conditions.
Chemical stability	Stable under normal conditions.
Possibility of hazardous reactions	None under normal processing.
Conditions to avoid	Excessive heat.
Incompatible materials	Strong acids. Strong bases. Strong oxidizing agents. Do not mix or allow to come into contact with oxidizing agents. Hazardous chemical reaction may occur.
Hazardous decomposition products	Hydrogen cyanide. Hydrogen chloride. Nitrogen oxides (NOx). Carbon oxides.

11. Toxicological information**Information on likely routes of exposure****Acute Toxicity**

Inhalation	LC ₅₀ (rat): >2.09 mg/L. Harmful if inhaled.
Eye contact	Corrosive. Causes irreversible damage to eyes.
Skin contact	LD ₅₀ (rat): >5,050 mg/kg. Non-irritating to skin based on animal studies, however, Prolonged or frequently repeated skin contact may cause allergic reactions.
Ingestion	LC ₅₀ (rat): 5,000 mg/kg. Low acute toxicity.

Symptoms related to the physical, chemical and toxicological characteristics

Symptoms	May cause blindness. Eye pain, eye redness/irritation, tearing, inability to keep the eye open. Coughing and/or wheezing. Difficulty breathing. Burning sensation. Itching. Rash. Hives.
----------	--

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Respiratory or skin sensitization	Prolonged or frequently repeated skin contact may cause allergic reactions. Chlorothalonil in very rare cases may cause an allergic response of the respiratory system.
-----------------------------------	---

Germ cell mutagenicity	Chlorothalonil: Did not show mutagenic effects in animals.
------------------------	--

Carcinogenicity

The table below indicates whether each agency has listed any ingredient as a carcinogen.

Chemical name	ACGIH	IARC	NTP
Chlorothalonil 1897-45-6	-	Group 2B	-

Legend**IARC (International Agency for Research on Cancer)**

Group 2B - Possibly Carcinogenic to Humans

Reproductive/Developmental toxicity	Chlorothalonil: Did not show reproductive toxicity effects in animal experiments. Did not show teratogenic effects in animal experiments.
Specific target organ toxicity	Chlorothalonil may cause respiratory irritation.
Target organ effects	Eyes, Lungs, Kidney
Aspiration hazard	None of the ingredients are known to be an aspiration hazard.
Other adverse effects	Chlorothalonil: In animal study, 1 year administration caused a significant decrease in body weight gain and increases in absolute liver and kidney weights.

12. Ecological information**Ecotoxicity (Acute)**

Chlorothalonil:

Green Algae 5-day EC₅₀: 190 ppb
Bird (Mallard Duck) LD₅₀ Oral: > 4640 mg/kg
Invertebrate (Water Flea) 48-hour EC₅₀: 70 ppb
Fish (Rainbow Trout) 96-hour LC₅₀: 47 ppb

Environmental Fate

Chlorothalonil:

Low bioaccumulation potential. Not persistent in soil or water. Low mobility in soil. Sinks in water (after 24 hrs.)

13. Disposal considerations

Waste treatment methods

Waste from residues/unused products	Triple rinse (or equivalent), adding rinse water to spray tank. Do not contaminate water, food, or feed by disposal. Dispose of in accordance with Federal, state, and local regulations. See product label for further instructions.
Contaminated packaging	Triple rinse (or equivalent). Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal. Do not contaminate water, food, or feed by disposal. Do not reuse container. Dispose of in accordance with Federal, state, and local regulations. See product label for further instructions.

14. Transport information

DOT (domestic ground):	Not regulated
IMDG:	UN3082, ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (CHLOROTHALONIL), 9, PG III, Marine Pollutant
IATA:	UN3082, Environmentally Hazardous Substance, Liquid, N.O.S., (Chlorothalonil), 9, PG III

15. Regulatory information

US Federal Regulations

TSCA
Not Regulated. Pesticide Exemption.

SARA 313
Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product contains a chemical or chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

Chemical name	SARA 313 - Threshold Values %
Chlorothalonil: 1897-45-6	0.1

SARA 311/312 Hazard Categories
Should this product meet EPCRA 311/312 Tier reporting criteria at 40 CFR 370, refer to Section 2 of this SDS for appropriate classifications.

CERCLA
This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

US State Regulations

U.S. State Right-to-Know Regulations

Chemical name	New Jersey	Massachusetts	Pennsylvania
Chlorothalonil 1897-45-6	X	X	X
Propylene glycol 57-55-6	X	-	X

California Proposition 65

WARNING: This product can expose you to chemicals including chlorothalonil, which is known to the State of California to cause cancer and ethylene glycol, which is known to the State of California to cause birth defects or other reproductive harm. For more information to: www.P65Warnings.ca.gov.

U.S. EPA Label Information

This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information required on the pesticide label:

EPA Pesticide Registration Number: 1381-277

Signal Word: DANGER

Human Hazard Statements: Corrosive. Causes irreversible eye damage. Harmful if inhaled. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. **DO NOT get** in eyes or on clothing. Avoid breathing vapor or spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

Physical/Chemical Hazard Statements: **DO NOT** mix or allow to come in contact with oxidizing agents. Hazardous chemical reaction may occur.

Environmental Hazard Statements: This product is toxic to aquatic invertebrates and wildlife. **DO NOT** apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high-water mark. Drift and runoff may be hazardous to aquatic organisms in neighboring areas. **DO NOT** contaminate water when disposing of equipment washwater or rinseate.

Groundwater Advisory

Chlorothalonil is known to leach through soil into groundwater under certain conditions as a result of label use. This chemical may leach into groundwater if used in areas where soils are permeable, particularly where the water table is shallow.

Surface Water Advisory

Chlorothalonil can contaminate surface water through spray drift. Under some conditions, it may also have a high potential for runoff into surface water for several days to weeks after application. These include poorly draining or wet soils with readily visible slopes toward adjacent surface waters, frequently flooded areas, areas overlaying extremely shallow groundwater, areas with infield canals or ditches that drain to surface water, areas not separated from adjacent surface waters with vegetated filter strips, and areas overlaying tile drainage systems that drain to surface water.
