

FOR USE AND DISTRIBUTION
IN THE STATE OF TEXAS ONLY

FIFRA Sec. 2(ee) Recommendation

Headline®

Fungicide

For control of sweet orange scab (*Elsinoe australis*) in citrus in Texas

This Section 2(ee) Recommendation expires on December 31, 2028.

EPA Reg. No. 7969-186

This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the EPA.

All applicable directions, restrictions, precautions, and Conditions of Sale and Warranty on the EPA registered container label are to be followed.

Information contained in this Section 2(ee) Recommendation is not intended to replace or amend any product labeling. Always read and follow all label directions when using any pesticide alone or in tank mix combinations.

The user must have this recommendation in their possession at the time of use.

Directions For Use

Apply 9 to 12 fl ozs of **Headline** per acre to control sweet orange scab. Follow all use directions under the citrus fruit section of the **Headline** container label.

DO NOT use **Headline** in greenhouse or transplant production.
